Dear Sir/Madam

Re: Water Supply 'By Separate Written Agreement' to:

1162 1170 BELLARINE HWY WALLINGTON 3222

Barwon Water's records indicate this property is not within a "Declared Serviced Area" and is supplied with water under a Separate Written Agreement. (SWA)

You should note this agreement is between the occupier (owner or tenant) of a property and Barwon Water, and is subject to conditions that **MUST** be adhered to. It should also be noted there is no property entitlement for continued supply of water to the land in question. Therefore a new occupier (owner or tenant) of this property is required to apply to Barwon Water for a new agreement for water supply to be continued. Please find attached **an application form to be completed and submitted within 14 days** of you occupying the property.

Due to recent changes in "Safe Drinking Water Regulations", Barwon Water now reviews all conditions when a new "supply agreement" relates to a property, and reserves the right to ensure water supply systems are consistent with today's standard requirements. Therefore, when the information on the water supply to the property is reviewed, if it is found all the conditions (including new conditions required due to the above regulation changes) are not met, Barwon Water will insist they are met thus ensuring continuance of supply under agreement arrangements.

The new Customer Charter contains standard terms and conditions that relate to this type of water supply agreement. Additional conditions which may include: meter types (e.g. remote RF meters etc.), relocation of private service pipes outside private property, and other modifications etc., may also be required at the owner or occupier's expense prior to an agreement existing. Terms and Conditions documents are available at Barwon Water's offices, on our website at www.barwonwater.vic.gov.au, or our staff can arrange to post or fax a copy to you by calling the number below.

If an application form is not received within 14 days of the new occupancy, Barwon Water may direct termination of this water supply. Alternatively, if the occupier of the property is not the owner, please advise of the occupier's details (name and postal address) so the relevant documentation may be forwarded appropriately.

If the supply to the property is through a system owned by a third party, the occupier will be required to deal with the owner(s) regarding continued access.

Should you have any further enquiries regarding the information above, please contact Development Services on 1300 656 007.

Notes to Certificate - Land Tax

Certificate No: 79798216

Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
 - Land tax that has been assessed but is not yet due,
 - Land tax for the current tax year that has not yet been assessed, and
 - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. Pursuant to section 96 of the *Land Tax Act 2005*, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
8. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the *Valuation of Land Act 1960*:

Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
 - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
 - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
 - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
 - the date on which the land became tax reform scheme land;
 - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
 - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification

must be given to the Commissioner within 30 days of the change of use.

Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to www.sro.vic.gov.au/CIPT.
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
 - the request is within 90 days of the original Certificate's issue date, and
 - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

Notes to Certificate - Windfall Gains Tax

Certificate No: 79798216

Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows in respect of the land described in the Certificate:
 - Windfall gains tax that is due and unpaid, including any penalty tax and interest
 - Windfall gains tax that is deferred, including any accrued deferral interest
 - Windfall gains tax that has been assessed but is not yet due
 - Windfall gains tax that has not yet been assessed (i.e. a WGT event has occurred that rezones the land but any windfall gains tax on the land is yet to be assessed)
 - Any other information that the Commissioner sees fit to include such as the amount of interest accruing per day in relation to any deferred windfall gains tax.

Windfall gains tax is a first charge on land

3. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, windfall gains tax, including any accrued interest on a deferral, is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid windfall gains tax.

Information for the purchaser

4. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, if a bona fide purchaser for value of land applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser by the Commissioner is the amount set out in the certificate, described as the "Current Windfall Gains Tax Charge" overleaf.
5. If the certificate states that a windfall gains tax is yet to be assessed, note 4 does not apply.
6. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

7. Despite the issue of a Certificate, the Commissioner may recover a windfall gains tax liability from a vendor, including any amount identified on this Certificate.

Passing on windfall gains tax to a purchaser

8. A vendor is prohibited from passing on a windfall gains tax liability to a purchaser where the liability has been assessed under a notice of assessment as at the date of the contract of sale of land or option agreement. This prohibition does not apply to a contract of sale entered into before 1 January 2024, or a contract of sale of land entered into on or after 1 January 2024 pursuant to the exercise of an option granted before 1 January 2024.

General information

9. A Certificate showing no liability for the land does not mean that the land is exempt from windfall gains tax. It means that there is nothing to pay at the date of the Certificate.
10. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.
11. Where a windfall gains tax liability has been deferred, interest accrues daily on the deferred liability. The deferred interest shown overleaf is the amount of interest accrued to the date of issue of the certificate.

being Lot 2 on Plan of Subdivision 637587L, Parent Title Volume 08938 Folio 173, Created by instrument PS637587L 21/09/2010, City of Greater Geelong, which has, according to Department of Energy, Environment and Climate Action (DEECA) records, a Property Identification Code (PIC) of 3GGME359.

NAME: Benjamin Bruce Stephenson

Thank you for your request dated 19 September 2024 requesting information on the above land.

This letter details particulars the **Department of Energy, Environment and Climate Action (DEECA)** / DEECA is obliged to disclose under section 32D of the *Sale of Land Act 1962*. The DEECA record keeping systems are based on the full name or trading name of the livestock owner using the land and **Property Identification Code (PIC)** / PIC as a reference to who owns the land and its geographical location. **The property for which this information is provided currently has no PIC registered with DEECA (delete if there is a PIC)**

A search was made of the records kept by DEECA specifically in relation to whether or not the land is subject to a current Land Use Restriction Notice issued under the *Agricultural and Veterinary Chemicals (Control of Use) Act 1992*, or a notice, order, report, declaration or recommendation made pursuant to the *Stock Disease Act 1968* (now repealed) or the *Livestock Disease Control Act 1994*.

No Land Use Restriction Notice is currently in force in relation to the subject land.

Soil was collected by staff of the DEECA (or its predecessors) from the abovementioned property on 23 March 2004, and tested for Dieldrin, DDT and other organochlorines. The presence of these chemicals was detected on the property. Attached is a copy of the analyst's report and accompanying advisory letter dated 24 June 2004. Also attached is a letter from DEECA advising the owner that the

property currently has a Resolved status for the purposes of this program and arrangements for Livestock Production Assurance (R letter attached).

If the purchaser intends to run cattle on this property, a Property Management Plan **will** be required. For information and assistance in developing this plan please contact DEECA via the Product Integrity email: productintegrity@agriculture.vic.gov.au

The absence of a Land Use Restriction Notice or any other notice, order, report, declaration or recommendation apart from that in the attached letter in respect to the land you have sought information about, must not be taken as an indication that the land is suitable for the purpose or purposes that the purchaser or prospective purchaser has in mind.

In addition, the absence of any notice (Land Use Restriction Notice or otherwise), order, declaration or recommendation apart from that in the attached letter must not be interpreted as confirmation that the land is free from disease, other chemical contamination or physical defect, or that the land is suitable for raising livestock.

If you are concerned that the land may be contaminated by disease, chemicals or noxious residues of any sort, then it may be possible to determine whether any such substances are present or absent by a program of soil sampling and testing. It is suggested that you discuss soil sampling procedures with an agricultural consultant or a testing laboratory, and if necessary, that the appropriate tests be carried out on the land before any commitment is made to purchasing the land.

Where it is planned to introduce livestock onto the land, then DEECA may be contacted for advice on how to responsibly manage livestock in order to avoid possible contamination or disease.

An invoice for the fee applicable to your enquiry is enclosed.

Dear Producer,

Re Future Funding and Management Arrangements for the National Organochlorine Management (NORM) Program

I am writing on behalf of the Australian beef industry to all cattle producers whose properties currently have a "T" (testing) or "R" (resolved) status under the NORM program. These statuses have been allocated following the identification of organochlorine (OC) residues in cattle or on land used for cattle production. This letter details proposed changes to funding and management arrangements for the NORM program.

Please read this letter carefully to ensure that you understand the implications of these changes for your business.

The Beef industry in Australia faces an ongoing threat from excessive OC residue levels in our product. Closure or restrictions of major international markets can occur should our trading partners not be satisfied with the effectiveness of control measures in place.

In the past 9 years Australian cattle producers have invested around \$1million annually to prevent unacceptable OC residues in beef. Cattle Council of Australia and the Australian Lot Feeders Association have allocated this money from every Australian producer's Cattle Transaction Levy (CTL) payments, as a part of the National Residue Survey. Government agencies have made similar annual contributions in kind to the NORM program.

Much of this money has been directed to help affected beef producers to develop Property Management Plans (PMPs) to ensure that beef produced on land with identified OC hazards meets the required food standards. The ongoing subsidization of audits for producers who have an "R" status is placing a considerable strain on industry funds reserved for residue management. Unless a more equitable and fair 'beneficiary pays' scheme is introduced the industry's reserves will be exhausted in 2008.

The beef industry is committed to ensuring more equitable arrangements for the NORM program's long term operation. To achieve this outcome the following changes to industry funding arrangements for properties with an assigned "R" status will take effect from December 2005.

- 1 Industry funds will no longer cover the ongoing cost of auditing the Property Management Plans for properties to maintain an "R" status. The current cost of these audits to the cattle industry is in excess of \$380 per audit with the frequency of audits determined by the OC risk and the complexity of the producer's PMP.

- 2 While there will be no ongoing regulatory actions to ensure PMPs are met, there may be some commercial industry programs, such as NFAS™, Cattlecare™ and LPA™, which will place requirements on participant properties with an “R” status
- 3 The beef industry will continue to provide support for the investigation and resolution of any newly identified OC residue problems Industry organisations and State, Territory and Federal government departments have developed the new NORM program to ensure that producers will have support funding for a period of 12 months to allow them to develop a PMP and manage their OC issues

The proposed changes to the NORM program are designed to ensure the more equitable use of limited industry funds available for residue management Management of OC issues is the responsibility of the landholder, and should be regarded as a cost of doing business The next 12 months should be seen by producers as an opportunity to implement necessary changes whilst testing and auditing costs are supported by common industry funds, and to use the industry and government resources while they are available under co-funding arrangements

If you have further questions regarding your “R” status, or have technical questions about OC management please contact your relevant State authority (below) during business hours

If you have any comments in relation to the proposed changes to the NORM program outlined in this letter, please contact the Cattle Council of Australia or the Australian Lot Feeders Association secretariats

Yours sincerely,

Dear Sir/Madam,

'R' CLASSIFICATION FOR *(insert PIC)*

The National Organochlorine Residue Minimisation (NORM) Program has recently been reviewed and a decision was made nationally to revise the system for classifying cattle-producing properties

As a consequence, your property classification is now 'R' (for 'resolved') This classification applies because there is an organochlorine risk on your property which is being managed under an auditable Property Management Plan (PMP)

Cattle from 'R' classification herds will not be routinely tested at slaughter If you use a **National Vendor Declaration or Livestock Production Assurance (LPA) NVD/waybill** when selling cattle, you may now **answer [✓] NO** to question 5, provided the cattle you are selling have not, in the six (6) months prior to sale, been on a property which has a current T1, T2, T3 or T4 classification

Enclosed is a letter from **SAFEMEAT**, explaining the changes to the NORM Program and the significance of your 'R' classification **SAFEMEAT** is the national industry/government partnership responsible for developing and implementing food safety policy within the Australian red meat industries

I remind you of your obligation to provide potential purchasers of your property with a copy of all correspondence from the Department documenting the areas of organochlorine contamination that are present on your property

Yours sincerely

SOIL TEST RESULTS FOR PROPERTY – VHBQ3338 / 3GGNE063

('nd' means no OC chemicals were detected above the level of reporting of the analytical method used by the laboratory)

The main contaminant detected was dieldrin on all paddocks tested.

Based on these test results, livestock grazing these paddocks/sites may organochlorine residues to levels exceeding current Maximum Residue Limits (MRLs). The MRL for a chemical is the maximum amount of the chemical legally permitted in food. Livestock with levels of dieldrin or DDT in fat in excess of the current MRLs of 0.2 mg/kg and 5 mg/kg respectively are contaminated and are unsuitable for human consumption. Dairy cows with these levels of contamination are likely to produce milk with a dieldrin (or DDT) concentration exceeding the MRL of 0.15 mg/kg with chemical residues. Bobby calves born to these cows may also have residues above MRL.

Recent studies indicate that OCs disappear at a very slow rate from the soil. The locations on your property where dieldrin is present are likely to remain contaminated for many decades. At this stage your property management plan will remain the same. Please ensure that you maintain to follow this protocol. I will contact you if I have any success locating any further information on current treatment practices.

Due diligence checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](http://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

(04/10/2016)

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

WALLINGTON VIC 3222

Dear Benjamin

Registration of Pool or Spa - PSR-2022-645
Registered Property - 1162-1170 Bellarine Highway, WALLINGTON

Thank you for registering your pool.

According to your building permit, the date of construction for your pool is **6 May 2016**. The date of construction determines the safety standards that apply to your pool barrier. It also determines when you need to have your pool inspected and submit a Form 23 - Certificate of pool and spa barrier compliance.

Based on your date of construction, your pool barrier must meet **AS1926.1-2012**.

Your compliance certificate is due on **1 June 2024**.

Under Section 144(2) of the Act, an owner may appeal to the Building Appeals Board against a determination by the relevant Council, of the date of construction of the swimming pool or spa within 30 days after the owner receives the determination.

What's next?

When your due date is approaching, you will need to organise for a private registered inspector or surveyor to inspect your pool or spa barrier.

If your pool or spa is compliant, they will give you a compliance certificate (Form 23), which you must submit to us within 30 days.

A fee will apply for this inspection - check this with your inspector or surveyor.

Inspections can only be completed by an inspector or surveyor. You can check that they are registered with the Victorian Building Authority (www.vba.vic.gov.au) by asking to see their registration card.

If your pool or spa barrier doesn't meet the standards, the inspector or surveyor will explain what needs to be fixed. The inspector or surveyor must come back to check the work has been done before issuing you with a certificate.

Lodging the compliance certificate (Form 23)

You must lodge the compliance certificate (Form 23) you receive from your inspector or surveyor straight away as it is only valid for 30 days after it has been issued.

Please click [here](#) or visit www.geelongaustralia.com.au/poolsafety to lodge this form online, along with the lodgement fee.

You will need to quote your pool or spa registration number: **PSR-2022-645**.

Thank you for supporting this important safety initiative.
