# Contract of sale of land

The vendor agrees to sell and the purchaser agrees to buy the property, being the land and the goods, for the price and on the terms set out in this contract.

The terms of this contract are contained in the -

- particulars of sale; and
- special conditions, if any; and
- general conditions (which are in standard form: see general condition 6.1)

in that order of priority.

## SIGNING OF THIS CONTRACT

**WARNING:** THIS IS A LEGALLY BINDING AGREEMENT. YOU SHOULD READ THIS CONTRACT BEFORE SIGNING IT.

Purchasers should ensure that they have received a section 32 statement from the vendor before signing this contract. In this contract, "section 32 statement" means the statement required to be given by a vendor under section 32 of the *Sale of Land Act 1962*.

The authority of a person signing -

- under power of attorney; or
- as director of a corporation; or
- as agent authorised in writing by one of the parties - must be noted beneath the signature.

Any person whose signature is secured by an estate agent acknowledges being given by the agent at the time of signing a copy of the terms of this contract.

# Special Conditions

## Definitions

In this contract the definitions set out below apply.

**Claim** means any and all claims, actions, disputes, differences, demands, proceedings, accounts, interest, Costs (whether or not the subject of a court order), Loss, expenses and debts or liabilities of any kind (including those which are prospective or contingent and those the amount of which is not ascertained) of whatever nature and however arising, including (before or after the date of actual settlement) to make a claim against the Vendor, seek to withhold all or part of the Price, raise any objection, requisition, rescind or terminate this contract or seek to delay or avoid settlement of this contract.

**Cost** means any cost, charge, expense, outgoing, payment, fee, liability or penalty of any kind, including any professional fees.

**Land** means the land described in the Particulars of Sale.

**Law** means any law (including principles of law or equity established by decisions of courts) that applies in Victoria, and any rule, regulation, ordinance, order, by-law, local law, statutory instrument, control, restriction, direction or notice made under a law by any Authority.

**Loss** means a loss, claim, action, damage, liability, cost, charge, expense, penalty, compensation, fine or outgoing suffered, paid or incurred.

## Special Condition 1 - Merger and severance

1.1 Any provision of this Contract which is capable of taking effect after completion of this Contract shall not merge on completion but shall continue in full force and effect.

1.2 Any provision in this Contract which is invalid or unenforceable in any jurisdiction is to be read down for the purposes of that jurisdiction, if possible, so as to be valid and enforceable, and is otherwise severed to the extent of the invalidity or unenforceability, without affecting the validity or enforceability of that provision in any other jurisdiction.

## Special condition 2 – Purchaser Acknowledgements

Before the purchaser signed this contract, the purchaser acknowledges (and warrants to, and for the benefit of the Vendor) that the purchaser;

- (a) was given an opportunity to read and consider the terms and conditions in this contract;
- (b) had an opportunity to seek legal and other professional advice on the terms and conditions in this contract; and
- (c) had sufficient opportunity to carry out investigations and to make enquiries in relation to the Property before signing this contract;
- (d) had sufficient opportunity to carry out investigations and to make enquiries in relation to the rights, benefits, costs, obligations and implications associated with applying for the Trust for Nature Covenant or the listing of the property on the National Heritage List and the purchaser has not relied on any representations, promises or warranties made by the vendor, the vendors legal representative or the vendors Agent in relation thereto. The purchaser acknowledges that the vendor has not made any representations or promises that the purchaser may meet the requirements or criteria or otherwise be eligible or accepted for inclusion in the National Heritage List or to be able to put a Trust for Nature Covenant on the property and the Purchaser agrees that the purchaser has relied entirely upon the purchaser's own independent inspection of, searches and enquiries made in connection with the Trust for Nature Covenant and the National Heritage List.

## Special condition 3 - No representations

The parties agree that there are no conditions, warranties, promises, representations or other terms affecting this sale other than those embodied herein.

## Special condition 4 – Planning Schemes, Easements, Covenants

The purchaser acknowledges that the property is purchased subject to;

- (a) any and all existing and future planning, environmental, building and similar controls relating to the use and development of the Property;
  - (b) any restrictions imposed by and subject to the provisions of the relevant planning scheme and planning permits and any other relevant planning controls;
  - (c) all registered and implied easements existing over or upon or affecting the property and the easements appropriated by any plan of subdivision (whether registered or unregistered) affecting the property;
  - (d) any Instrument or covenant affecting the property;
- and the purchaser is satisfied about the purposes for which the property may be used.

### **Special condition 5 – Buildings / Improvements / Dwelling**

5.1 General condition 6.6 (c) is deleted.

5.2 The land and buildings as sold hereby and inspected by the purchaser are sold on the basis of existing improvements thereon and the purchaser shall not make any requisition or claim any compensation for any deficiency or defect in the said improvements, as to their suitability for occupation or otherwise including any requisition in relation to the issue or non issue of Building Permits and/or completion of inspections by the relevant authorities in respect of any improvements thereon.

5.3 The vendor makes no warranty or representation that any improvements on the property comply with requirements of the Building Code of Australia or any local laws, legislation or repealed legislation under which the improvements were constructed and the purchaser acknowledges that the vendor makes no representations or warranties as to the procuring of a building permit, building approvals, Certificate of Occupancy or any other permits in relation to the property. A failure, if any to so comply with those laws does not constitute a defect in the vendor's title and the purchaser is not entitled to make any objection or requisition or claim any compensation from the vendor.

5.4 The purchaser acknowledges that the purchaser has purchased the property as a result of the purchaser's own enquiries and the purchaser shall not be entitled to make any objection or claim any compensation whatsoever in respect of the existence, state of repair and/or the condition of any buildings, outbuildings or structures on the property. The purchaser acknowledges that any failure to comply with any law or regulation in relation to the construction, renovation, addition or repair to any building, outbuilding or any structure on the property shall not be deemed to constitute a defect in the vendor's title.

5.5 Further, the purchaser acknowledges that the vendor is not under any obligation or liability to the purchaser to carry out any alterations, repairs or improvements to or on the property or to any buildings, outbuildings or structures on the property.

### **Special condition 6 – Purchasers indemnity**

The Purchaser indemnifies the Vendor from and against any Claim or Loss arising out of or in connection with any:

- (a) failure by the Purchaser or any nominee(s) to comply with any of its obligations under or arising out of this contract; or
- (b) act or omission that occurs after the Settlement Date concerning the Property.

### **Special condition 7 – Time is of the essence**

General condition 26 is amended to include a new provision General Condition 26.5 which shall read;

26.5 Time shall remain the essence of this contract despite any waiver or indulgence granted by a non-defaulting party to the party in default.

### **Special condition 8 - Stamp duty**

The purchaser acknowledges that:

- (a) The vendor makes no warranty or representation as to the amount of stamp duty that may be assessed on the transfer of the property,
- (b) The purchaser has relied on the purchaser's own independent advice on all stamp duty related matters concerning the transfer of the property including the proportional holdings if there is more than one purchaser.

### **Special condition 9 - Identity of the land**

The purchaser admits that the land as offered for sale and as inspected by the purchaser is identical to that described in the title particulars as the land being sold in the vendor statement. The purchaser will not make any requisition nor claim any compensation for any alleged misdescription of the land or any deficiency in the area or the measurements of the land, or call upon the vendor to move any fences, amend the title or bear all or any part of the cost of doing so.

### **Special condition 10 - Default not remedied**

General condition 35.4(c) (Default not remedied) is amended by deleting the words 'within one year of the contract ending'.

### **Special condition 11 - Nomination**

General condition 4 is deleted and replaced by this special condition:

4. The purchaser may nominate a substitute or additional transferee but the named purchaser remains personally liable for the performance of all the purchaser's obligations under this contract.

The purchaser must procure execution of a nomination document in the form of a deed satisfactory to the vendor, binding the nominee to the obligations, acknowledgements, representations, warranties and agreements of the purchaser under this contract. The vendor is not bound to act in accordance with a nomination unless the purchaser has provided the vendor with a copy of the fully executed nomination deed at least 10 business days before settlement.

### **Special condition 12 – Goods/plant and chattels**

12.1 The purchaser acknowledges having inspected the plant, goods, fittings and appliances forming part of the contract and the purchaser is aware of their condition and any deficiencies.

12.2 All plant, goods, fittings and appliances of a working nature shall be delivered to the purchaser on the settlement date in the same state or working order and repair as at the date hereof subject to fair wear and tear, and the plant, goods, fittings and appliances shall be taken by the purchaser subject to all damage and defects if any existing at the date hereof and the vendor makes no warranty of representation concerning the same.

12.3 The purchaser shall not require the goods to be in working order at the date of settlement unless they were in working order on the day of sale and nor shall the purchaser claim any compensation in relation to any deficiencies in the goods, fittings, or appliances.

#### **Special condition 13 - Guarantee**

If a company purchases the property:

- (a) Any person who signs this contract will be personally responsible to comply with all of the terms and conditions of this contract; and
- (b) All of the directors of the company must sign the guarantee attached to this contract and deliver it to the vendor on the day of sale.
- (c) If the guarantee is not completed and signed on the day of sale, or any other time agreed to by the vendor, the vendor may end this contract by written notice to the purchaser.

#### **Special condition 14 – Purchaser as Trustee**

If the purchaser executes this deed as trustee of a trust (Trust) (whether the purchaser's capacity as such has been disclosed to the vendor or not), the purchaser represents and covenants that:

- (a) the purchaser is empowered to execute this contract;
- (b) the purchaser is bound in its or their personal capacity as well as trustee of the Trust;
- (c) the purchaser is the sole trustee of the Trust;
- (d) this contract will bind the purchaser and any successor of the purchaser as trustee of the Trust; and the purchaser will obtain the vendor's prior written consent for a change of trustee of the Trust before the settlement date and procure that any successor of the purchaser enters into a deed of covenant with and to the satisfaction of the vendor at the cost of the purchaser.

#### **Special condition 15 - Loss or damage before settlement**

General conditions 31.3 to 31.6 inclusive are deleted.

#### **Special condition 16 - FIRB Approval**

- 16.1 The purchaser warrants that the provisions of the Foreign Acquisitions and Takeovers Act 1975 (C'th) do not require the purchaser to obtain consent to enter this contract.
- 16.2 If there is a breach of the warranty contained in this Special Condition (whether intentional or not) the purchaser must indemnify and compensate the vendor for any loss, damage or cost which the vendor incurs as a result of the breach;
- 16.3 This warranty and indemnity do not merge on completion of this contract.

#### **Special condition 17 – Adjustments - Existing Land Tax/ Windfall Gains Tax**

General condition 23.1 is amended to specifically exclude land tax (if any) and/or any existing windfall gains tax liability (if any) owed by the vendor as a periodic outgoing payable by the vendor.

The vendors land tax or existing windfall gains tax liability (if any) shall not be apportioned between the parties on the settlement date.

If a future Windfall Gains Tax assessment arises during the course of this contract, that windfall land tax may be apportioned between the parties

#### **Special condition 18 - Smoke Alarms**

- 18.1 The Purchaser hereby acknowledges that if smoke alarms are installed in the dwelling they may not have the safety measures that complies with Building Regulations 2018.
- 18.2 The Purchaser further acknowledges and agrees that the purchaser has made its own enquiries in relation to compliance with the relevant building regulations and the Purchaser agrees that they cannot terminate this contract should the smoke alarms not comply with the building regulations or any notice issued by any authority. The Purchaser agrees that they may not seek any compensation from the Vendor for any noncompliance.

#### **Special condition 19 - Solar Panels**

The purchaser acknowledges that if there are solar panels installed on the roof of the dwelling constructed on the property the vendor makes no representations or warranties with respect to the solar panels in relation to their condition, state of repair, fitness for the purposes for which they were installed, their in-put to the electricity grid or any benefits arising from any electricity generated by the said solar panels.

#### **Special condition 20 - Counterparts**

This contract may be executed in counterparts. All executed counterparts constitute one document.

**Special condition 21 - Auction**

This property is offered for sale by public auction, subject to the vendors reserve price. The rules for the conduct of the auction shall be as set out in the schedules to the Sale of Land (Public Auctions) Regulations 2024 or any rules prescribed by regulation which modify or replace those rules.

**GST WITHHOLDING NOTICE**

The vendor gives the purchaser notice that the property is not a new residential property or potential residential land. The purchaser is not required to make a GST withholding payment under section 14-250 of Schedule 1 to the Taxation Administration Act 1953 (TAA) in relation to this supply of land and this special condition serves as a notification for the purposes of section 14-255 of Schedule 1 to the TAA.

Without limiting general condition 25.2, the vendor may issue a further notice in accordance with section 14-255, in which case the later notice issued by the vendor replaces the notice in this special condition in this contract of sale.

# General Conditions

## Contract signing

### 1. ELECTRONIC SIGNATURE

- 1.1 In this general condition "electronic signature" means a digital signature or a visual representation of a person's handwritten signature or mark which is placed on a physical or electronic copy of this contract by electronic or mechanical means, and "electronically signed" has a corresponding meaning.
- 1.2 The parties consent to this contract being signed by or on behalf of a party by an electronic signature.
- 1.3 Where this contract is electronically signed by or on behalf of a party, the party warrants and agrees that the electronic signature has been used to identify the person signing and to indicate that the party intends to be bound by the electronic signature.
- 1.4 This contract may be electronically signed in any number of counterparts which together will constitute the one document.
- 1.5 Each party consents to the exchange of counterparts of this contract by delivery by email or such other electronic means as may be agreed in writing.
- 1.6 Each party must upon request promptly deliver a physical counterpart of this contract with the handwritten signature or signatures of the party and all written evidence of the authority of a person signing on their behalf, but a failure to comply with the request does not affect the validity of this contract.

### 2. LIABILITY OF SIGNATORY

Any signatory for a proprietary limited company purchaser is personally liable for the due performance of the purchaser's obligations as if the signatory were the purchaser in the case of a default by a proprietary limited company purchaser.

### 3. GUARANTEE

The vendor may require one or more directors of the purchaser to guarantee the purchaser's performance of this contract if the purchaser is a proprietary limited company.

### 4. NOMINEE

The purchaser may no later than 14 days before the due date for settlement nominate a substitute or additional person to take a transfer of the land, but the named purchaser remains personally liable for the due performance of all the purchase's obligations under this contract.

---

## Title

### 5. ENCUMBRANCES

- 5.1 The purchaser buys the property subject to:
  - (a) any encumbrance shown in the section 32 statement other than mortgages or caveats; and
  - (b) any reservations, exceptions and conditions in the crown grant; and
  - (c) any lease or tenancy referred to in the particulars of sale.
- 5.2 The purchaser indemnifies the vendor against all obligations under any lease or tenancy that are to be performed by the landlord after settlement.

### 6. VENDOR WARRANTIES

- 6.1 The vendor warrants that these general conditions 1 to 35 are identical to the general conditions 1 to 35 in the form of contract of sale of land published by the Law Institute of Victoria Limited and the Real Estate Institute of Victoria Pty Ltd in the month and year set out at the foot of this page.
- 6.2 The warranties in general conditions 6.3 and 6.4 replace the purchaser's right to make requisitions and inquiries.
- 6.3 The vendor warrants that the vendor:
  - (a) has, or by the due date for settlement will have, the right to sell the land; and
  - (b) is under no legal disability; and
  - (c) is in possession of the land, either personally or through a tenant; and
  - (d) has not previously sold or granted any option to purchase, agreed to lease or granted a pre-emptive right which is current over the land and which gives another party rights which have priority over the interest of the purchaser; and
  - (e) will at settlement be the holder of an unencumbered estate in fee simple in the land; and
  - (f) will at settlement be the unencumbered owner of any improvements, fixtures, fittings and goods sold with the land.
- 6.4 The vendor further warrants that the vendor has no knowledge of any of the following:
  - (a) public rights of way over the land;

- (b) easements over the land;
  - (c) lease or other possessory agreement affecting the land;
  - (d) notice or order directly or indirectly affecting the land which will not be dealt with at settlement, other than the usual rate notices and any land tax notices;
  - (e) legal proceedings which would render the sale of the land void or voidable or capable of being set aside.
- 6.5 The warranties in general conditions 6.3 and 6.4 are subject to any contrary provisions in this contract and disclosures in the section 32 statement.
- 6.6 If sections 137B and 137C of the *Building Act* 1993 apply to this contract, the vendor warrants that:
- (a) all domestic building work carried out in relation to the construction by or on behalf of the vendor of the home was carried out in a proper and workmanlike manner; and
  - (b) all materials used in that domestic building work were good and suitable for the purpose for which they were used and that, unless otherwise stated in the contract, those materials were new; and
  - (c) domestic building work was carried out in accordance with all laws and legal requirements, including, without limiting the generality of this warranty, the *Building Act* 1993 and regulations made under the *Building Act* 1993.
- 6.7 Words and phrases used in general condition 6.6 which are defined in the Building Act 1993 have the same meaning in general condition 6.6.

## 7. IDENTITY OF THE LAND

- 7.1 An omission or mistake in the description of the property or any deficiency in the area, description or measurements of the land does not invalidate the sale.
- 7.2 The purchaser may not:
- (a) make any objection or claim for compensation for any alleged misdescription of the property or any deficiency in its area or measurements; or
  - (b) require the vendor to amend title or pay any cost of amending title.

## 8. SERVICES

- 8.1 The vendor does not represent that the services are adequate for the purchaser's proposed use of the property and the vendor advises the purchaser to make appropriate inquiries. The condition of the services may change between the day of sale and settlement and the vendor does not promise that the services will be in the same condition at settlement as they were on the day of sale.
- 8.2 The purchaser is responsible for the connection of all services to the property after settlement and the payment of any associated cost.

## 9. CONSENTS

The vendor must obtain any necessary consent or licence required for the vendor to sell the property. The contract will be at an end and all money paid must be refunded if any necessary consent or licence is not obtained by settlement.

## 10. TRANSFER & DUTY

- 10.1 The purchaser must prepare and deliver to the vendor at least 7 days before the due date for settlement any paper transfer of land document which is necessary for this transaction. The delivery of the transfer of land document is not acceptance of title.
- 10.2 The vendor must promptly initiate the Duties on Line or other form required by the State Revenue Office in respect of this transaction, and both parties must co-operate to complete it as soon as practicable.

## 11. RELEASE OF SECURITY INTEREST

- 11.1 This general condition applies if any part of the property is subject to a security interest to which the *Personal Property Securities Act* 2009 (Cth) applies.
- 11.2 For the purposes of enabling the purchaser to search the Personal Property Securities Register for any security interests affecting any personal property for which the purchaser may be entitled to a release, statement, approval or correction in accordance with general condition 11.4, the purchaser may request the vendor to provide the vendor's date of birth to the purchaser. The vendor must comply with a request made by the purchaser under this condition if the purchaser makes the request at least 21 days before the due date for settlement.
- 11.3 If the purchaser is given the details of the vendor's date of birth under condition 11.2, the purchaser must
- (a) only use the vendor's date of birth for the purposes specified in condition 11.2; and
  - (b) keep the date of birth of the vendor secure and confidential.
- 11.4 The vendor must ensure that at or before settlement, the purchaser receives –
- (a) a release from the secured party releasing the property from the security interest; or
  - (b) a statement in writing in accordance with section 275(1)(b) of the *Personal Property Securities Act* 2009 (Cth) setting out that the amount or obligation that is secured is nil at settlement; or
  - (c) a written approval or correction in accordance with section 275(1)(c) of the *Personal Property Securities Act* 2009

(Cth) indicating that, on settlement, the personal property included in the contract is not or will not be property in which the security interest is granted.

- 11.5 Subject to general condition 11.6, the vendor is not obliged to ensure that the purchaser receives a release, statement, approval or correction in respect of personal property -
- (a) that –
    - (i) the purchaser intends to use predominately for personal, domestic or household purposes; and
    - (ii) has a market value of not more than \$5000 or, if a greater amount has been prescribed for the purposes of section 47(1) of the *Personal Property Securities Act 2009* (Cth), not more than that prescribed amount; or
  - (b) that is sold in the ordinary course of the vendor's business of selling personal property of that kind.
- 11.6 The vendor is obliged to ensure that the purchaser receives a release, statement, approval or correction in respect of personal property described in general condition 11.5 if -
- (a) the personal property is of a kind that may be described by a serial number in the Personal Property Securities Register; or
  - (b) the purchaser has actual or constructive knowledge that the sale constitutes a breach of the security agreement that provides for the security interest.
- 11.7 A release for the purposes of general condition 11.4(a) must be in writing.
- 11.8 A release for the purposes of general condition 11.4(a) must be effective in releasing the goods from the security interest and be in a form which allows the purchaser to take title to the goods free of that security interest.
- 11.9 If the purchaser receives a release under general condition 11.4(a) the purchaser must provide the vendor with a copy of the release at or as soon as practicable after settlement.
- 11.10 In addition to ensuring a release is received under general condition 11.4(a), the vendor must ensure that at or before settlement the purchaser receives a written undertaking from a secured party to register a financing change statement to reflect that release if the property being released includes goods of a kind that are described by serial number in the Personal Property Securities Register.
- 11.11 The purchaser must advise the vendor of any security interest that is registered on or before the day of sale on the Personal Property Securities Register, which the purchaser reasonably requires to be released, at least 21 days before the due date for settlement.
- 11.12 The vendor may delay settlement until 21 days after the purchaser advises the vendor of the security interests that the purchaser reasonably requires to be released if the purchaser does not provide an advice under general condition 11.11.
- 11.13 If settlement is delayed under general condition 11.12, the purchaser must pay the vendor -
- (a) interest from the due date for settlement until the date on which settlement occurs or 21 days after the vendor receives the advice, whichever is the earlier; and
  - (b) any reasonable costs incurred by the vendor as a result of the delay -  
as though the purchaser was in default.
- 11.14 The vendor is not required to ensure that the purchaser receives a release in respect of the land. This general condition 11.14 applies despite general condition 11.1.
- 11.15 Words and phrases which are defined in the *Personal Property Securities Act 2009* (Cth) have the same meaning in general condition 11 unless the context requires otherwise.

## 12. BUILDING WARRANTY INSURANCE

The vendor warrants that the vendor will provide at settlement details of any current builder warranty insurance in the vendor's possession relating to the property if requested in writing to do so at least 21 days before settlement.

## 13. GENERAL LAW LAND

- 13.1 The vendor must complete a conversion of title in accordance with section 14 of the *Transfer of Land Act 1958* before settlement if the land is the subject of a provisional folio under section 23 of that Act.
- 13.2 The remaining provisions of this general condition 13 only apply if any part of the land is not under the operation of the *Transfer of Land Act 1958*.
- 13.3 The vendor is taken to be the holder of an unencumbered estate in fee simple in the land if there is an unbroken chain of title starting at least 30 years before the day of sale proving on the face of the documents the ownership of the entire legal and equitable estate without the aid of other evidence.
- 13.4 The purchaser is entitled to inspect the vendor's chain of title on request at such place in Victoria as the vendor nominates.
- 13.5 The purchaser is taken to have accepted the vendor's title if:
- (a) 21 days have elapsed since the day of sale; and
  - (b) the purchaser has not reasonably objected to the title or reasonably required the vendor to remedy a defect in the title.
- 13.6 The contract will be at an end if:
- (a) the vendor gives the purchaser a notice that the vendor is unable or unwilling to satisfy the purchaser's objection or requirement and that the contract will end if the objection or requirement is not withdrawn within 14 days of the

- giving of the notice; and
  - (b) the objection or requirement is not withdrawn in that time.
- 13.7 If the contract ends in accordance with general condition 13.6, the deposit must be returned to the purchaser and neither party has a claim against the other in damages.
- 13.8 General condition 17.1 [settlement] should be read as if the reference to 'registered proprietor' is a reference to 'owner' in respect of that part of the land which is not under the operation of the *Transfer of Land Act 1958*.

## Money

### 14. DEPOSIT

- 14.1 The purchaser must pay the deposit:
- (a) to the vendor's licensed estate agent; or
  - (b) if there is no estate agent, to the vendor's legal practitioner or conveyancer; or
  - (c) if the vendor directs, into a special purpose account in an authorised deposit-taking institution in Victoria specified by the vendor in the joint names of the purchaser and the vendor.
- 14.2 If the land is sold on an unregistered plan of subdivision, the deposit:
- (a) must not exceed 10% of the price; and
  - (b) must be paid to the vendor's estate agent, legal practitioner or conveyancer and held by the estate agent, legal practitioner or conveyancer on trust for the purchaser until registration of the plan of subdivision.
- 14.3 The deposit must be released to the vendor if:
- (a) the vendor provides particulars, to the satisfaction of the purchaser; that either
    - (i) there are no debts secured against the property; or
    - (ii) if there are any debts, the total amount of those debts together with any amounts to be withheld in accordance with general conditions 24 and 25 does not exceed 80% of the sale price; and
  - (b) at least 28 days have elapsed since the particulars were given to the purchaser under paragraph (a); and
  - (c) all conditions of section 27 of the *Sale of Land Act 1962* have been satisfied.
- 14.4 The stakeholder must pay the deposit and any interest to the party entitled when the deposit is released, the contract is settled, or the contract is ended.
- 14.5 The stakeholder may pay the deposit and any interest into court if it is reasonable to do so.
- 14.6 Where the purchaser is deemed by section 27(7) of the *Sale of Land Act 1962* to have given the deposit release authorisation referred to in section 27(1), the purchaser is also deemed to have accepted title in the absence of any prior express objection to title.
- 14.7 Payment of the deposit may be made or tendered:
- (a) in cash up to \$1,000 or 0.2% of the price, whichever is greater; or
  - (b) by cheque drawn on an authorised deposit-taking institution; or
  - (c) by electronic funds transfer to a recipient having the appropriate facilities for receipt.
- However, unless otherwise agreed:
- (d) payments may not be made by credit card, debit card or any other financial transfer system that allows for any chargeback or funds reversal other than for fraud or mistaken payment, and
  - (e) any financial transfer or similar fees or deductions from the funds transferred, other than any fees charged by the recipient's authorised deposit-taking institution, must be paid by the remitter.
- 14.8 Payment by electronic transfer is made when cleared funds are received in the recipient's bank account.
- 14.9 Before the funds are electronically transferred the intended recipient must be notified in writing and given sufficient particulars to readily identify the relevant transaction.
- 14.10 As soon as the funds have been electronically transferred the intended recipient must be provided with the relevant transaction number or reference details.
- 14.11 For the purposes of this general condition 'authorised deposit-taking institution' means a body corporate for which an authority under section 9(3) of the *Banking Act 1959* (Cth) is in force.

### 15. DEPOSIT BOND

- 15.1 This general condition only applies if the applicable box in the particulars of sale is checked.
- 15.2 In this general condition "deposit bond" means an irrevocable undertaking to pay on demand an amount equal to the deposit or any unpaid part of the deposit. The issuer and the form of the deposit bond must be satisfactory to the vendor. The deposit bond must have an expiry date at least 45 days after the due date for settlement.

- 15.3 The purchaser may deliver a deposit bond to the vendor's estate agent, legal practitioner or conveyancer within 7 days after the day of sale.
- 15.4 The purchaser may at least 45 days before a current deposit bond expires deliver a replacement deposit bond on the same terms and conditions.
- 15.5 Where a deposit bond is delivered, the purchaser must pay the deposit to the vendor's legal practitioner or conveyancer on the first to occur of:
  - (a) settlement;
  - (b) the date that is 45 days before the deposit bond or any replacement deposit bond expires;
  - (c) the date on which this contract ends in accordance with general condition 35.2 [default not remedied] following breach by the purchaser; and
  - (d) the date on which the vendor ends this contract by accepting repudiation of it by the purchaser.
- 15.6 The vendor may claim on the deposit bond without prior notice if the purchaser defaults under this contract or repudiates this contract and the contract is ended. The amount paid by the issuer satisfies the obligations of the purchaser under general condition 15.5 to the extent of the payment.
- 15.7 Nothing in this general condition limits the rights of the vendor if the purchaser defaults under this contract or repudiates this contract, except as provided in general condition 15.6.
- 15.8 This general condition is subject to general condition 14.2 [deposit].

## 16. BANK GUARANTEE

- 16.1 This general condition only applies if the applicable box in the particulars of sale is checked.
- 16.2 In this general condition:
  - (a) "bank guarantee" means an unconditional and irrevocable guarantee or undertaking by a bank in a form satisfactory to the vendor to pay on demand any amount under this contract agreed in writing, and
  - (b) "bank" means an authorised deposit-taking institution under the *Banking Act 1959* (Cth).
- 16.3 The purchaser may deliver a bank guarantee to the vendor's legal practitioner or conveyancer.
- 16.4 The purchaser must pay the amount secured by the bank guarantee to the vendor's legal practitioner or conveyancer on the first to occur of:
  - (a) settlement;
  - (b) the date that is 45 days before the bank guarantee expires;
  - (c) the date on which this contract ends in accordance with general condition 35.2 [default not remedied] following breach by the purchaser; and
  - (d) the date on which the vendor ends this contract by accepting repudiation of it by the purchaser.
- 16.5 The vendor must return the bank guarantee document to the purchaser when the purchaser pays the amount secured by the bank guarantee in accordance with general condition 16.4.
- 16.6 The vendor may claim on the bank guarantee without prior notice if the purchaser defaults under this contract or repudiates this contract and the contract is ended. The amount paid by the bank satisfies the obligations of the purchaser under general condition 16.4 to the extent of the payment.
- 16.7 Nothing in this general condition limits the rights of the vendor if the purchaser defaults under this contract or repudiates this contract except as provided in general condition 16.6.
- 16.8 This general condition is subject to general condition 14.2 [deposit].

## 17. SETTLEMENT

- 17.1 At settlement:
  - (a) the purchaser must pay the balance; and
  - (b) the vendor must:
    - (i) do all things necessary to enable the purchaser to become the registered proprietor of the land; and
    - (ii) give either vacant possession or receipt of rents and profits in accordance with the particulars of sale.
- 17.2 Settlement must be conducted between the hours of 10.00 a.m. and 4.00 p.m. unless the parties agree otherwise.
- 17.3 The purchaser must pay all money other than the deposit in accordance with a written direction of the vendor or the vendor's legal practitioner or conveyancer.

## 18. ELECTRONIC SETTLEMENT

- 18.1 Settlement and lodgment of the instruments necessary to record the purchaser as registered proprietor of the land will be conducted electronically in accordance with the Electronic Conveyancing National Law. This general condition 18 has priority over any other provision of this contract to the extent of any inconsistency.
- 18.2 A party must immediately give written notice if that party reasonably believes that settlement and lodgment can no longer be conducted electronically. Special condition 18 ceases to apply from when such a notice is given.

- 18.3 Each party must:
- (a) be, or engage a representative who is, a subscriber for the purposes of the Electronic Conveyancing National Law,
  - (b) ensure that all other persons for whom that party is responsible and who are associated with this transaction are, or engage, a subscriber for the purposes of the Electronic Conveyancing National Law, and
  - (c) conduct the transaction in accordance with the Electronic Conveyancing National Law.
- 18.4 The vendor must open the electronic workspace (“workspace”) as soon as reasonably practicable and nominate a date and time for settlement. The inclusion of a specific date for settlement in a workspace is not of itself a promise to settle on that date or at that time. The workspace is an electronic address for the service of notices and for written communications for the purposes of any electronic transactions legislation.
- 18.5 This general condition 18.5 applies if there is more than one electronic lodgement network operator in respect of the transaction. In this general condition 18.5 “the transaction” means this sale and purchase and any associated transaction involving any of the same subscribers.
- To the extent that any interoperability rules governing the relationship between electronic lodgement network operators do not provide otherwise:
- (a) the electronic lodgement network operator to conduct all the financial and lodgement aspects of the transaction after the workspace locks must be one which is willing and able to conduct such aspects of the transaction in accordance with the instructions of all the subscribers in the workspaces of all the electronic lodgement network operators after the workspace locks;
  - (b) if two or more electronic lodgement network operators meet that description, one may be selected by purchaser’s incoming mortgagee having the highest priority but if there is no mortgagee of the purchaser, the vendor must make the selection.
- 18.6 Settlement occurs when the workspace records that:
- (a) there has been an exchange of funds or value between the exchange settlement account or accounts in the Reserve Bank of Australia of the relevant financial institutions or their financial settlement agents in accordance with the instructions of the parties; or
  - (b) if there is no exchange of funds or value, the documents necessary to enable the purchaser to become registered proprietor of the land have been accepted for electronic lodgement
- 18.7 The parties must do everything reasonably necessary to effect settlement:
- (a) electronically on the next business day; or
  - (b) at the option of either party, otherwise than electronically as soon as possible –
- if, after the locking of the workspace at the nominated settlement time, settlement in accordance with special condition 18.6 has not occurred by 4.00 pm, or 6.00 pm if the nominated time for settlement is after 4.00 pm.
- 18.8 Each party must do everything reasonably necessary to assist the other party to trace and identify the recipient of any missing or mistaken payment and to recover the missing or mistaken payment.
- 18.9 The vendor must before settlement:
- (a) deliver any keys, security devices and codes (“keys”) to the estate agent named in the contract,
  - (b) direct the estate agent to give the keys to the purchaser or the purchaser’s nominee on notification of settlement by the vendor, the vendors subscriber or the electronic lodgment network operator,
  - (c) deliver all other physical documents and items (other than the goods sold by the contract) to which the purchaser is entitled at settlement, and any keys if not delivered to the estate agent, to the vendor’s subscriber or, if there is no vendor’s subscriber, confirm in writing to the purchaser that the vendor holds those documents, items and keys at the vendor’s address set out in the contract, and
- give, or direct its subscriber to give, all those documents and items and any such keys to the purchaser or the purchaser’s nominee on notification by the electronic lodgement network operator of settlement.

## 19. GST

- 19.1 The purchaser does not have to pay the vendor any amount in respect of GST in addition to the price if the particulars of sale specify that the price includes GST (if any).
- 19.2 The purchaser must pay to the vendor any GST payable by the vendor in respect of a taxable supply made under this contract in addition to the price if:
- (a) the particulars of sale specify that GST (if any) must be paid in addition to the price; or
  - (b) GST is payable solely as a result of any action taken or intended to be taken by the purchaser after the day of sale, including a change of use; or
  - (c) the particulars of sale specify that the supply made under this contract is of land on which a ‘farming business’ is carried on and the supply (or part of it) does not satisfy the requirements of section 38-480 of the GST Act; or
  - (d) the particulars of sale specify that the supply made under this contract is of a going concern and the supply (or a part of it) does not satisfy the requirements of section 38-325 of the GST Act.

- 19.3 The purchaser is not obliged to pay any GST under this contract until a tax invoice has been given to the purchaser.
- 19.4 If the particulars of sale specify that the supply made under this contract is of land on which a 'farming business' is carried on:
- (a) the vendor warrants that the property is land on which a farming business has been carried on for the period of 5 years preceding the date of supply; and
  - (b) the purchaser warrants that the purchaser intends that a farming business will be carried on after settlement on the property.
- 19.5 If the particulars of sale specify that the supply made under this contract is a 'going concern':
- (a) the parties agree that this contract is for the supply of a going concern; and
  - (b) the purchaser warrants that the purchaser is, or prior to settlement will be, registered for GST; and
  - (c) the vendor warrants that the vendor will carry on the going concern until the date of supply.
- 19.6 If the particulars of sale specify that the supply made under this contract is a 'margin scheme' supply, the parties agree that the margin scheme applies to this contract.
- 19.7 In this general condition:
- (a) 'GST Act' means *A New Tax System (Goods and Services Tax) Act 1999* (Cth); and
  - (b) 'GST' includes penalties and interest.

## 20. LOAN

- 20.1 If the particulars of sale specify that this contract is subject to a loan being approved, this contract is subject to the lender approving the loan on the security of the property by the approval date or any later date allowed by the vendor.
- 20.2 The purchaser may end the contract if the loan is not approved by the approval date, but only if the purchaser:
- (a) immediately applied for the loan; and
  - (b) did everything reasonably required to obtain approval of the loan; and
  - (c) serves written notice ending the contract, together with written evidence of rejection or non-approval of the loan, on the vendor within 2 clear business days after the approval date or any later date allowed by the vendor; and
  - (d) is not in default under any other condition of this contract when the notice is given.
- 20.3 All money must be immediately refunded to the purchaser if the contract is ended.

## 21. BUILDING REPORT

- 21.1 This general condition only applies if the applicable box in the particulars of sales is checked.
- 21.2 The purchaser may end this contract within 14 days from the days of sale if the purchaser:
- (a) obtains a written report from a registered building practitioner or architect which discloses a current defect in a structure on the land and designates it as a major building defect;
  - (b) gives the vendor a copy of the report and a written notice ending this contract; and
  - (c) is not in then in default.
- 21.3 All money paid must be immediately refunded to the purchaser if the contract ends in accordance with this general condition.
- 21.4 A notice under this general condition may be served on the vendor's legal practitioner, conveyancer or estate agent even if the estate agent's authority has formally expired at the time of service.
- 21.5 The registered building practitioner may inspect the property at any reasonable time for the purpose of preparing the report.

## 22. PEST REPORT

- 22.1 This general condition only applies if the applicable box in the particulars of sale is checked.
- 22.2 The purchaser may end this contract within 14 days from the day of sale if the purchaser:
- (a) obtains a written report from a pest control operator licensed under Victorian law which discloses a current pest infestation on the land and designates it as a major infestation affecting the structure of a building on the land;
  - (b) gives the vendor a copy of the report and a written notice ending this contract; and
  - (c) is not then in default.
- 22.3 All money paid must be immediately refunded to the purchaser if the contract ends in accordance with this general condition.
- 22.4 A notice under this general condition may be served on the vendor's legal practitioner, conveyancer or estate agent even if the estate agent's authority has formally expired at the time of service.
- 22.5 The pest control operator may inspect the property at any reasonable time for the purpose of preparing the report.

## 23. ADJUSTMENTS

- 23.1 All periodic outgoings payable by the vendor, and any rent and other income received in respect of the property must be apportioned between the parties on the settlement date and any adjustment paid and received as appropriate.
- 23.2 The periodic outgoings and rent and other income must be apportioned on the following basis:
- (a) the vendor is liable for the periodic outgoings and entitled to the rent and other income up to and including the day of settlement; and
  - (b) the land is treated as the only land of which the vendor is owner (as defined in the *Land Tax Act 2005*); and
  - (c) the vendor is taken to own the land as a resident Australian beneficial owner; and
  - (d) any personal statutory benefit available to each party is disregarded in calculating apportionment.
- 23.3 The purchaser must provide copies of all certificates and other information used to calculate the adjustments under general condition 23, if requested by the vendor.

## 24. FOREIGN RESIDENT CAPITAL GAINS WITHHOLDING

- 24.1 Words defined or used in Subdivision 14-D of Schedule 1 to the *Taxation Administration Act 1953* (Cth) have the same meaning in this general condition unless the context requires otherwise.
- 24.2 Every vendor under this contract is a foreign resident for the purposes of this general condition unless the vendor gives the purchaser a clearance certificate issued by the Commissioner under section 14-220 (1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth). The specified period in the clearance certificate must include the actual date of settlement.
- 24.3 The remaining provisions of this general condition 24 only apply if the purchaser is required to pay the Commissioner an amount in accordance with section 14-200(3) or section 14-235 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) ("the amount") because one or more of the vendors is a foreign resident, the property has or will have a market value not less than the amount set out in section 14-215 of the legislation just after the transaction, and the transaction is not excluded under section 14-215(1) of the legislation.
- 24.4 The amount is to be deducted from the vendor's entitlement to the contract consideration. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.
- 24.5 The purchaser must:
- (a) engage a legal practitioner or conveyancer ("representative") to conduct all legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and
  - (b) ensure that the representative does so.
- 24.6 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests and instructions that the representative must:
- (a) pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from moneys under the control or direction of the representative in accordance with this general condition if the sale of the property settles;
  - (b) promptly provide the vendor with proof of payment; and
  - (c) otherwise comply, or ensure compliance with, this general condition;
- despite:
- (d) any contrary instructions, other than from both the purchaser and the vendor; and
  - (e) any other provision in this contract to the contrary.
- 24.7 The representative is taken to have complied with the requirements in special condition 24.6 if:
- (a) the settlement is conducted through an electronic lodgement network; and
  - (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.
- 24.8 Any clearance certificate or document evidencing variation of the amount in accordance with section 14-235(2) of Schedule 1 to the *Taxation Administration Act 1953* (Cth) must be given to the purchaser at least 5 business days before the due date for settlement.
- 24.9 The vendor must provide the purchaser with such information as the purchaser requires to comply with the purchaser's obligation to pay the amount in accordance with section 14-200 of Schedule 1 to the *Taxation Administration Act 1953* (Cth). The information must be provided within 5 business days of request by the purchaser. The vendor warrants that the information the vendor provides is true and correct.
- 24.10 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of late payment of the amount.

## 25. GST WITHHOLDING

- 25.1 Words and expressions defined or used in Subdivision 14-E of Schedule 1 to the *Taxation Administration Act 1953* (Cth) or in *A New Tax System (Goods and Services Tax) Act 1999* (Cth) have the same meaning in this general condition unless the context requires otherwise. Words and expressions first used in this general condition and shown in italics and marked with an asterisk are defined or described in at least one of those Acts.

- 25.2 The purchaser must notify the vendor in writing of the name of the recipient of the \*supply for the purposes of section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) at least 21 days before the due date for settlement unless the recipient is the purchaser named in the contract.
- 25.3 The vendor must at least 14 days before the due date for settlement provide the purchaser and any person nominated by the purchaser under general condition 4 with GST withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth), and must provide all information required by the purchaser or any person so nominated to confirm the accuracy of the notice.
- 25.4 The remaining provisions of this general condition 25 apply if the purchaser is or may be required to pay the Commissioner an \*amount in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) because the property is \*new residential premise or \*potential residential land in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this general condition 25 is to be taken as relieving the vendor from compliance with section 14-255.
- 25.5 The amount is to be deducted from the vendor's entitlement to the contract \*consideration and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth). The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.
- 25.6 The purchaser must:
- (a) engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and
  - (b) ensure that the representative does so.
- 25.7 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests relating to the payment of the amount to the Commissioner and instructions that the representative must:
- (a) pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from moneys under the control or direction of the representative in accordance with this general condition on settlement of the sale of the property;
  - (b) promptly provide the vendor with evidence of payment, including any notification or other document provided by the purchaser to the Commissioner relating to payment; and
  - (c) otherwise comply, or ensure compliance, with this general condition;
- despite:
- (d) any contrary instructions, other than from both the purchaser and the vendor; and
  - (e) any other provision in this contract to the contrary.
- 25.8 The representative is taken to have complied with the requirements of general condition 25.7 if:
- (a) settlement is conducted through the electronic lodgement network; and
  - (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.
- 25.9 The purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the *Taxation Administration Act 1953* (Cth), but only if:
- (a) so agreed by the vendor in writing; and
  - (b) the settlement is not conducted through an electronic lodgement network.
- However, if the purchaser gives the bank cheque in accordance with this general condition 25.9, the vendor must:
- (c) immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and
  - (d) give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.
- 25.10 A party must provide the other party with such information as the other party requires to:
- (a) decide if an amount is required to be paid or the quantum of it, or
  - (b) comply with the purchaser's obligation to pay the amount,
- in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth). The information must be provided within 5 business days of a written request. The party providing the information warrants that it is true and correct.
- 25.11 The vendor warrants that:
- (a) at settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255; and
  - (b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) is the correct amount required to be paid under section 14-250 of the legislation.

- 25.12 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount, except to the extent that:
- (a) the penalties or interest arise from any failure on the part of the vendor, including breach of a warranty in general condition 25.11; or
  - (b) the purchaser's reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth)

The vendor is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount if either exception applies.

- 28.2 The purchaser is responsible for any notice, order, demand or levy imposing liability on the property that is issued or made on or after the day of sale that does not relate to periodic outgoings.
- 28.3 The purchaser may enter the property to comply with that responsibility where action is required before settlement.

### 29. INSPECTION

The purchaser and/or another person authorised by the purchaser may inspect the property at any reasonable time during the 7 days preceding and including the settlement day.

### 30. TERMS CONTRACT

- 30.1 If this is a 'terms contract' as defined in the *Sale of Land Act 1962*:
- (a) any mortgage affecting the land sold must be discharged as to that land before the purchaser becomes entitled to possession or to the receipt of rents and profits unless the vendor satisfies section 29M of the *Sale of Land Act 1962*; and

- (b) the deposit and all other money payable under the contract (other than any money payable in excess of the amount required to so discharge the mortgage) must be paid to a legal practitioner or conveyancer or a licensed estate agent to be applied in or towards discharging the mortgage.

30.2 While any money remains owing each of the following applies:

- (a) the purchaser must maintain full damage and destruction insurance of the property and public risk insurance noting all parties having an insurable interest with an insurer approved in writing by the vendor;
- (b) the purchaser must deliver copies of the signed insurance application forms, the policies and the insurance receipts to the vendor not less than 10 days before taking possession of the property or becoming entitled to receipt of the rents and profits;
- (c) the purchaser must deliver copies of any amendments to the policies and the insurance receipts on each amendment or renewal as evidence of the status of the policies from time to time;
- (d) the vendor may pay any renewal premiums or take out the insurance if the purchaser fails to meet these obligations;
- (e) insurance costs paid by the vendor under paragraph (d) must be refunded by the purchaser on demand without affecting the vendor's other rights under this contract;
- (f) the purchaser must maintain and operate the property in good repair (fair wear and tear excepted) and keep the property safe, lawful, structurally sound, weatherproof and free from contaminations and dangerous substances;
- (g) the property must not be altered in any way without the written consent of the vendor which must not be unreasonably refused or delayed;
- (h) the purchaser must observe all obligations that affect owners or occupiers of land;
- (i) the vendor and/or other person authorised by the vendor may enter the property at any reasonable time to inspect it on giving 7 days written notice, but not more than twice in a year.

### 31. LOSS OR DAMAGE BEFORE SETTLEMENT

- 31.1 The vendor carries the risk of loss or damage to the property until settlement.
- 31.2 The vendor must deliver the property to the purchaser at settlement in the same condition it was in on the day of sale, except for fair wear and tear.
- 31.3 The purchaser must not delay settlement because one or more of the goods is not in the condition required by general condition 31.2, but may claim compensation from the vendor after settlement.
- 31.4 The purchaser may nominate an amount not exceeding \$5,000 to be held by a stakeholder to be appointed by the parties if the property is not in the condition required by general condition 31.2 at settlement.
- 31.5 The nominated amount may be deducted from the amount due to the vendor at settlement and paid to the stakeholder, but only if the purchaser also pays an amount equal to the nominated amount to the stakeholder.
- 31.6 The stakeholder must pay the amounts referred to in general condition 31.5 in accordance with the determination of the dispute, including any order for payment of the costs of the resolution of the dispute.

### 32. BREACH

A party who breaches this contract must pay to the other party on demand:

- (a) compensation for any reasonably foreseeable loss to the other party resulting from the breach; and
- (b) any interest due under this contract as a result of the breach.

## Default

### 33. INTEREST

Interest at a rate of 2% per annum plus the rate for the time being fixed by section 2 of the *Penalty Interest Rates Act 1983* is payable at settlement on any money owing under the contract during the period of default, without affecting any other rights of the offended party.

### 34. DEFAULT NOTICE

- 34.1 A party is not entitled to exercise any rights arising from the other party's default, other than the right to receive interest and the right to sue for money owing, until the other party is given and fails to comply with a written default notice.
- 34.2 The default notice must:
  - (a) specify the particulars of the default; and
  - (b) state that it is the offended party's intention to exercise the rights arising from the default unless, within 14 days of the notice being given-
    - (i) the default is remedied; and
    - (ii) the reasonable costs incurred as a result of the default and any interest payable are paid.

### 35. DEFAULT NOT REMEDIED

- 35.1 All unpaid money under the contract becomes immediately payable to the vendor if the default has been made by the purchaser and is not remedied and the costs and interest are not paid.

- 35.2 The contract immediately ends if:
- (a) the default notice also states that unless the default is remedied and the reasonable costs and interest are paid, the contract will be ended in accordance with this general condition; and
  - (b) the default is not remedied and the reasonable costs and interest are not paid by the end of the period of the default notice.
- 35.3 If the contract ends by a default notice given by the purchaser:
- (a) the purchaser must be repaid any money paid under the contract and be paid any interest and reasonable costs payable under the contract; and
  - (b) all those amounts are a charge on the land until payment; and
  - (c) the purchaser may also recover any loss otherwise recoverable.
- 35.4 If the contract ends by a default notice given by the vendor:
- (a) the deposit up to 10% of the price is forfeited to the vendor as the vendor's absolute property, whether the deposit has been paid or not; and
  - (b) the vendor is entitled to possession of the property; and
  - (c) in addition to any other remedy, the vendor may within one year of the contract ending either:
    - (i) retain the property and sue for damages for breach of contract; or
    - (ii) resell the property in any manner and recover any deficiency in the price on the resale and any resulting expenses by way of liquidated damages; and
  - (d) the vendor may retain any part of the price paid until the vendor's damages have been determined and may apply that money towards those damages; and
  - (e) any determination of the vendor's damages must take into account the amount forfeited to the vendor.
- 35.5 The ending of the contract does not affect the rights of the offended party as a consequence of the default.

## Areas of Aboriginal Cultural Heritage Sensitivity

All or part of this property is an 'area of cultural heritage sensitivity'.

'Areas of cultural heritage sensitivity' are defined under the Aboriginal Heritage Regulations 2018, and include registered Aboriginal cultural heritage places and land form types that are generally regarded as more likely to contain Aboriginal cultural heritage.

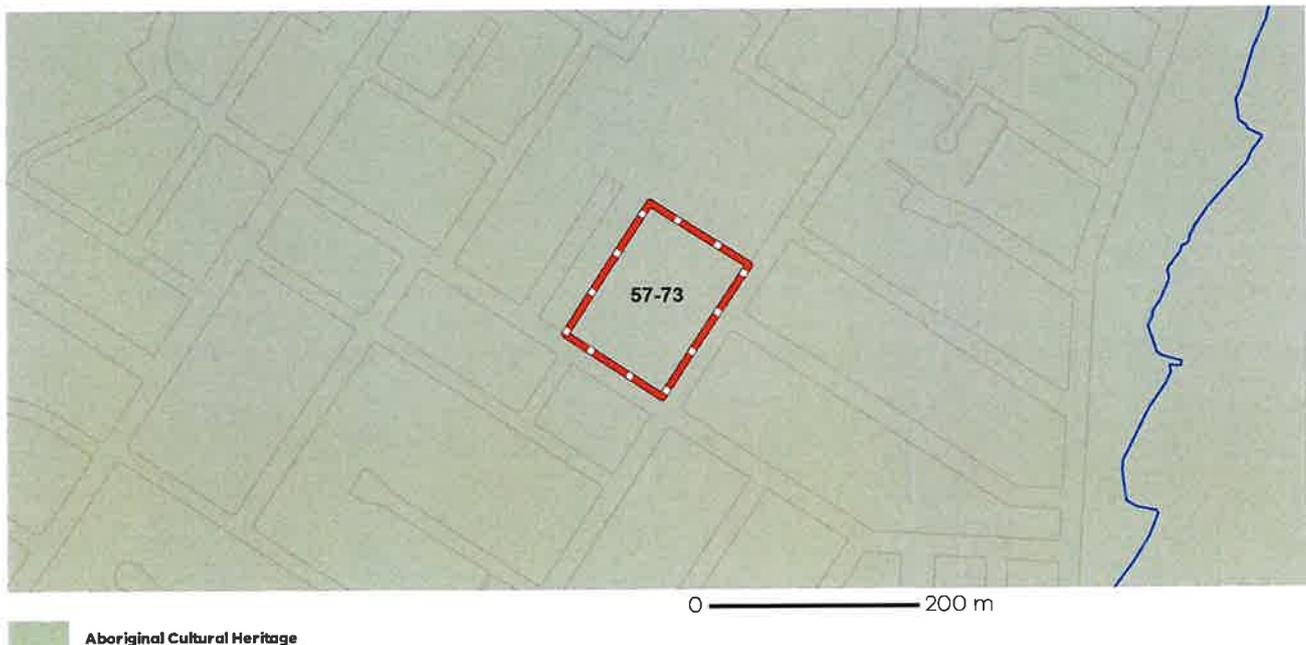

Under the Aboriginal Heritage Regulations 2018, 'areas of cultural heritage sensitivity' are one part of a two part trigger which require a 'cultural heritage management plan' be prepared where a listed 'high impact activity' is proposed.

If a significant land use change is proposed (for example, a subdivision into 3 or more lots), a cultural heritage management plan may be triggered. One or two dwellings, works ancillary to a dwelling, services to a dwelling, alteration of buildings and minor works are examples of works exempt from this requirement.

Under the Aboriginal Heritage Act 2006, where a cultural heritage management plan is required, planning permits, licences and work authorities cannot be issued unless the cultural heritage management plan has been approved for the activity.

For further information about whether a Cultural Heritage Management Plan is required go to <https://heritage.ochris.vic.gov.au/govQuestion1.aspx>

More information, including links to both the Aboriginal Heritage Act 2006 and the Aboriginal Heritage Regulations 2018, can also be found here - <https://www.firstpeoplesrelations.vic.gov.au/aboriginal-heritage-legislation>

### Further Planning Information

Planning scheme data last updated on 22 August 2025.

A **planning scheme** sets out policies and requirements for the use, development and protection of land. This report provides information about the zone and overlay provisions that apply to the selected land. Information about the State and local policy, particular, general and operational provisions of the local planning scheme that may affect the use of this land can be obtained by contacting the local council or by visiting <https://www.planning.vic.gov.au>

This report is NOT a **Planning Certificate** issued pursuant to Section 199 of the **Planning and Environment Act 1987**. It does not include information about exhibited planning scheme amendments, or zonings that may affect the land. To obtain a Planning Certificate go to Titles and Property Certificates at Landata - <https://www.landata.vic.gov.au>

## Designated Bushfire Prone Areas

**This property is not in a designated bushfire prone area.  
No special bushfire construction requirements apply. Planning provisions may apply.**

Where part of the property is mapped as BPA, if no part of the building envelope or footprint falls within the BPA area, the BPA construction requirements do not apply.

Note: the relevant building surveyor determines the need for compliance with the bushfire construction requirements.

Designated BPA are determined by the Minister for Planning following a detailed review process. The Building Regulations 2018, through adoption of the Building Code of Australia, apply bushfire protection standards for building works in designated BPA.

Designated BPA maps can be viewed on VicPlan at <https://mapshare.vic.gov.au/vicplan/> or at the relevant local council.

Create a BPA definition plan in [VicPlan](#) to measure the BPA.

Information for lot owners building in the BPA is available at <https://www.planning.vic.gov.au>.

Further information about the building control system and building in bushfire prone areas can be found on the Victorian Building Authority website <https://www.vba.vic.gov.au>. Copies of the Building Act and Building Regulations are available from <http://www.legislation.vic.gov.au>. For Planning Scheme Provisions in bushfire areas visit <https://www.planning.vic.gov.au>.

## Native Vegetation

Native plants that are indigenous to the region and important for biodiversity might be present on this property. This could include trees, shrubs, herbs, grasses or aquatic plants. There are a range of regulations that may apply including need to obtain a planning permit under Clause 52.17 of the local planning scheme. For more information see [Native Vegetation \(Clause 52.17\)](#) with local variations in [Native Vegetation \(Clause 52.17\) Schedule](#)

To help identify native vegetation on this property and the application of Clause 52.17 please visit the Native Vegetation Information Management system <https://nvim.delwp.vic.gov.au/> and [Native vegetation \(environment.vic.gov.au\)](#) or please contact your relevant council.

You can find out more about the natural values on your property through NatureKit [NatureKit \(environment.vic.gov.au\)](#)

### Important Information

Account Not Yet Issued For Service And Volume Charges.

The water meter for this property was last read on 01/12/2025. In order to ensure accurate water volume charges are able to be adjusted at the time of settlement, you will need to make application for a special meter reading. This can be requested via [Property enquiry application](#) or by visiting the Properties and development section of our website. You should allow 5 working days for this to be completed and the certificate to be sent to you.

The information statement will also provide details of other charges, including any unpaid amounts. In order to ensure this is accurate close to the time of settlement, you can request an Information Statement update by going to [Information statement update](#) or by visiting Properties and development – Information statement update page on our website or by calling 1300 656 007.

In accordance with Section 275 of the Water Act 1989, a person who becomes the owner of a property must pay to Barwon Water at the time the person becomes the owner of the property, any amount that is due to Barwon Water as a charge on that property.

To effect a change of ownership, details of the sale are required by Notice of Disposition or Acquisition to Barwon Water, P.O. Box 659, Geelong Vic 3220.

**\* PLEASE NOTE:** Verbal confirmation will not be given after 20/03/2026. Barwon Water will not be held responsible for information provided verbally. For settlement purposes another certificate should be obtained after 20/03/2026 and a fee will be payable.

If the property to be purchased is vacant land, any proposed building will attract connection fees and/or contribution fees. To find out more detail on these please contact Barwon Water on 1300 656 007.

I refer to your application received at this office on 19/01/2026. I wish to advise encumbrances which may not be shown on Certificate of Title presently exist in respect of the above property, and are set out below.

Encumbrances: A sewer main vested in Barwon Water is laid as per attached copy of plan.

The plan shows the location of sewers vested in Barwon Water. This information has been obtained from plans kept by Barwon Water for its own purposes. The plans may show the position of such underground water and sewerage services and other structures and equipment relative to fences, buildings, levels, and the like as these existed at the time such plant was installed. The plans have not necessarily been amended to take account of any subsequent change in any matter. Barwon Water does not warrant or hold out that the plans show more than the presence or absence of the services and will accept no liability arising from use of the information shown on the plans.

No Notices served in respect of the property at present remain outstanding, relative to the connection of water supply and/or sewerage services.

It should be noted the erection of any building, wall, bridge, fence, or other structure over, under, or within one metre laterally of any sewer vested in Barwon Water is prohibited by the Water Act 1989, unless the written consent of Barwon Water is first obtained.

Please note: Stage 6A and above of 'The Point' Estate, Point Lonsdale are primarily serviced by a Pressure Sewer system, consisting of a pressure pipe in the street and a collection pit and grinder pump in each property. Barwon Water owns and operates these assets.

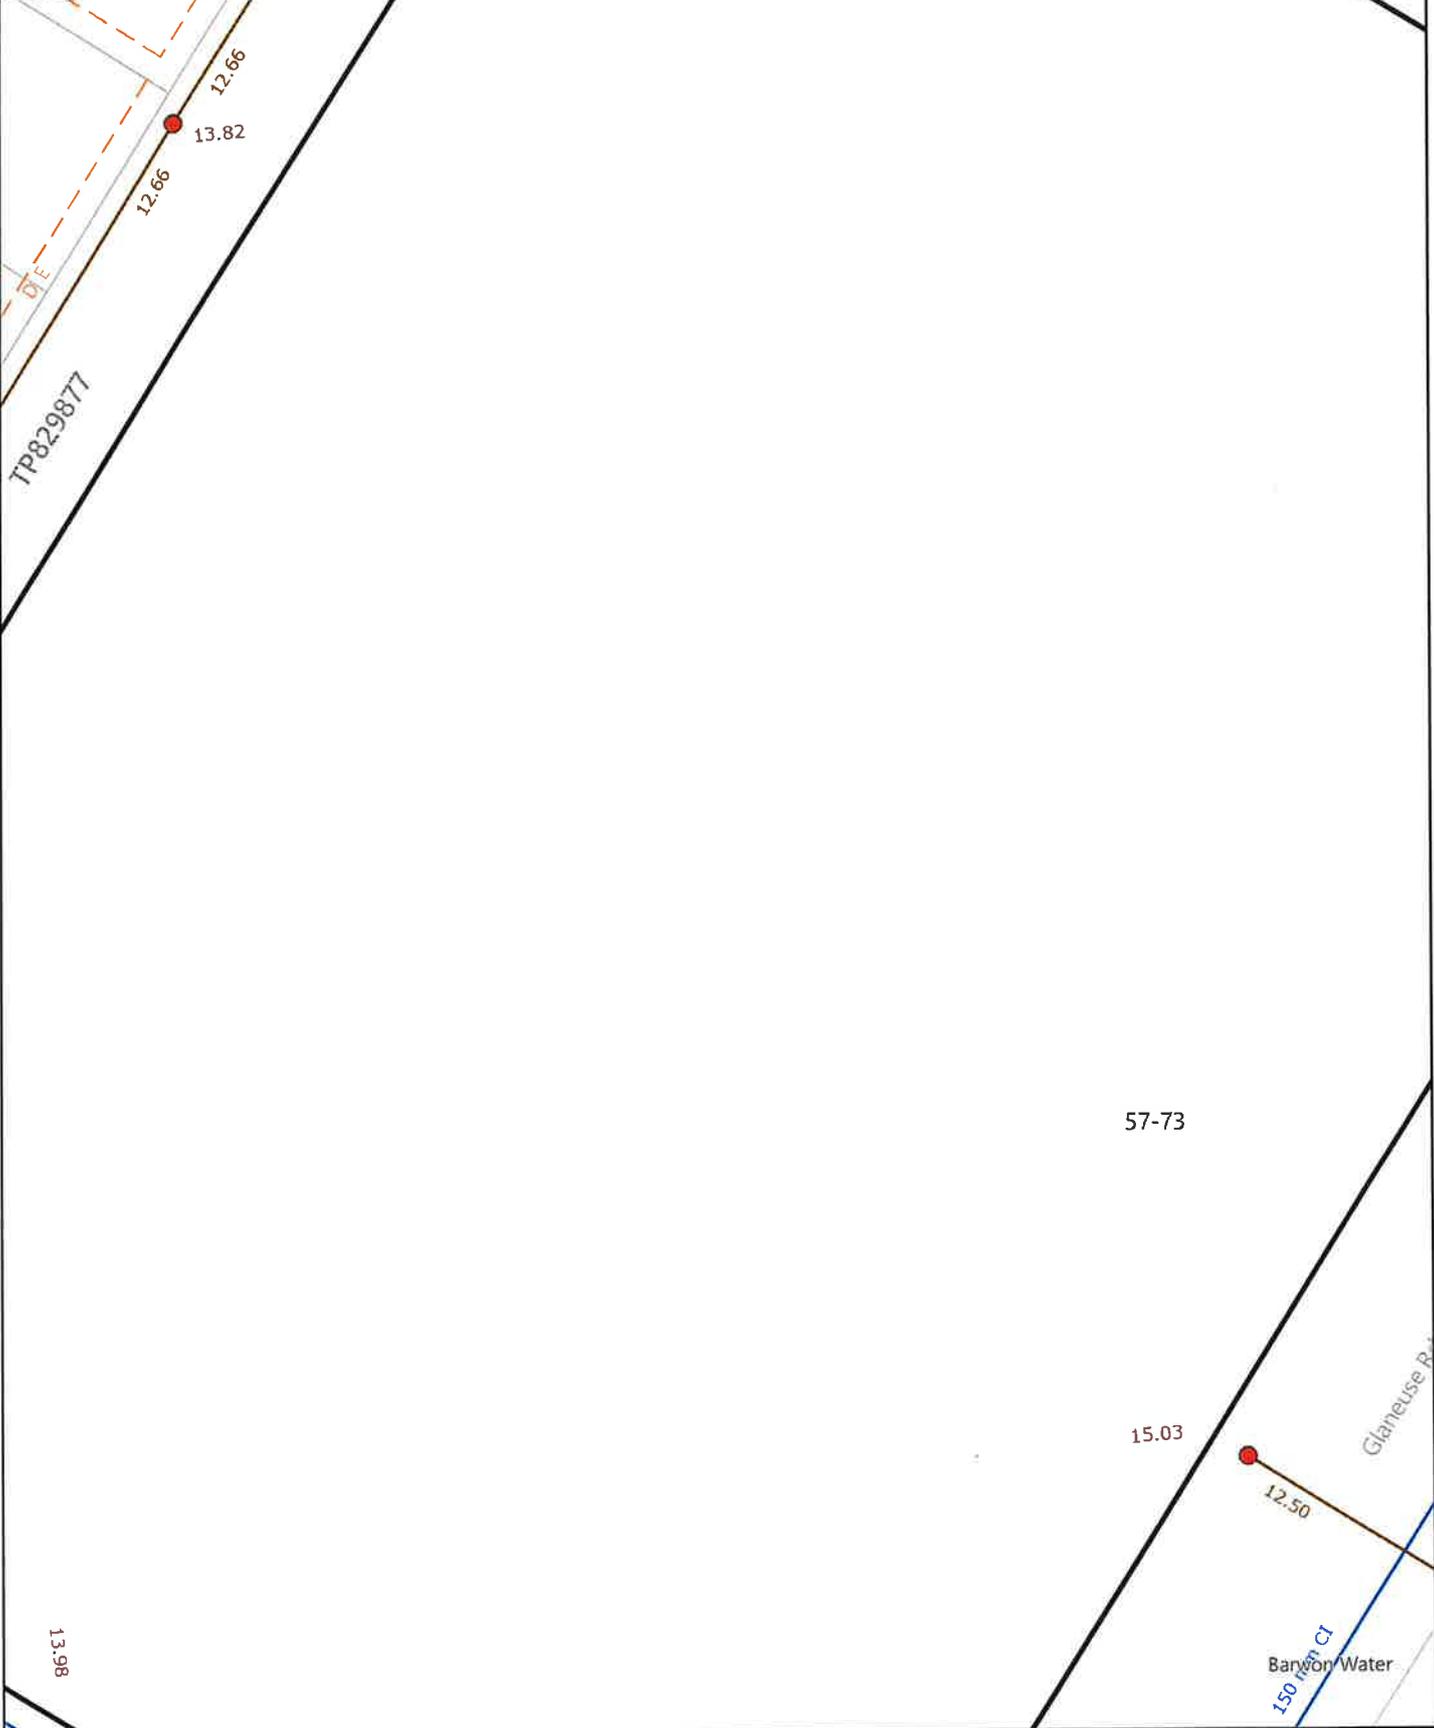

Should your property be located at The Point Estate please contact Barwon Water to discuss the requirements of the pressure sewer system.

Should you have any inquiries, please contact Barwon Water on 1300 656 007.

### Finalised Priority Assessment List for the National Heritage List for 20

Name of Place	Description	Assessment Completion Date	Main Classification
Ghow Swamp (VIC)	Ghow Swamp has long been recognised at the state, national and international level as an area of high archaeological and cultural significance. Ghow Swamp is recognised not only as one of Australia's most significant burial places, but the largest single collection of Ancestral remains dating back to the late Pleistocene and Holocene in the world. The complex Aboriginal cultural heritage landscape was registered on the Victorian Aboriginal Heritage Register as 'Kow Swamp Aboriginal Place' (7726-0505). Ghow Swamp was also renowned as a significant meeting place.	30 June 2028	Indigenous, Natural
The Nut and volcanic features of Stanley Peninsula (TAS)	The geology and landscape of The Nut and nearby volcanic features are unique in Australia and are an important geomorphological area for the nation. Some of the features are the only documented examples in the world. The Nut is a State Geological Monument and a Tasmanian Site of Geoconservation Significance. From a geological and geomorphological perspective, the Stanley Peninsula is a world-class example of exceptionally well-preserved submarine volcanoes and lava. The geological features have been the subject of several publications in international volcanological journals.	30 June 2028	Natural, Histori

Ballara (VIC)	Ballara was built by former Prime Minister Alfred Deakin and his wife Pattie in 1907. It is little altered and contains many original furnishings, papers and art works. Ballara's building and grounds uniquely reflect and embody the visions of one of Australia's leading figures at a major time in his life.	30 June 2028	Natural, Histori

## Special conditions or instructions

Special requirements, requests or instructions given by the client or the client's representative -

This report may be conditional on information provided by the person, agents or employees of the person requesting report, apparent concealment of possible defects and a range of other factors.

The following apply: It is highly recommended that you read this report throughout. Please note that this report is conditional upon the requirements of AS 4349.0 section 4.3 conditions.

- Prevailing weather conditions or recent occupancy and use of services may affect observations.
- information provided by the client or agents of the client.
- Any other relevant factors limiting the inspection.

## Inspection Agreement

AS 4349.1-2007 and 4349.3-2010 require that an inspection agreement be entered into between the inspector & the client prior to the conduct of the inspection. This agreement sets out specific limitations on the scope of the inspection and on limits that apply in carrying it out. Where specific State or Territory requirements apply in addition to the scope of work in this agreement, or where the inspector and client agree to additional matters being covered, that additional scope is listed at the end of this agreement. It is assumed that the existing use of the building will continue.

AS 4349.1 - 2007 requires that the basis for comparison is a building of similar age and similar type to the subject building and which is in reasonable condition, having been adequately maintained over the life of the building. This means that building being inspected may not comply with Australian Standards, building regulations or specific state or territory requirements applicable at the time of the inspection

Inspection agreement supplied: No

## Terminology

The definitions below apply to the types of defects associated with individual items / parts or inspection areas -

<b>Damage</b>	The building material or item has deteriorated or is not fit for its designed purpose
<b>Distortion, warping, twisting</b>	The item has moved out of shape or moved from its position
<b>Water penetration, Dampness</b>	Moisture has gained access to unplanned and / or unacceptable areas
<b>Material Deterioration</b>	The item is subject to one or more of the following defects; rusting, rotting, corrosion, decay
<b>Operational</b>	The item or part does not function as expected
<b>Installation</b>	The installation of an item is unacceptable, has failed or is absent

## Scope of inspection

### BUILDING INSPECTION

This is a visual Building Inspection Report carried out in accordance with AS4349.1 -2007. The purpose of this inspection is to provide advice to the Client regarding the condition of the Building & Site at the time of inspection. The report covers only safety hazards, major defects, and a general impression regarding the extent of minor defects. The building was compared with a building that was constructed in accordance with the generally accepted practice at the time of construction and which has been maintained such that there has been no significant loss of strength and serviceability.

### TIMBER PEST INSPECTION

This Visual Timber Pest Inspection & Report is in accordance with Australian Standard 4349.3 -Inspection of Buildings Part 3: Timber Pest Inspections. This Report only deals with the detection or non-detection of Timber Pest Attack and Conditions Conducive to Timber Pest Attack discernible at the time of inspection. The inspection was limited to the Readily Accessible Areas of the Building & Site and was based on a visual examination of surface work (excluding furniture and stored items), and the carrying out of Tests.

# Accessibility

---

Unless noted in "Special Conditions or Instructions", the inspection only covered the Readily Accessible Areas of the Building and Site (see Note below).

Note. With strata and company title properties, the inspection was limited to the interior and the immediate exterior of the particular residence inspected. Common property was not inspected.

"Readily Accessible Areas" means areas which can be easily and safely inspected without injury to person or property, are up to 3.6 metres above ground or floor levels, in roof spaces where the minimum area of accessibility is not less than 600 mm high by 600 mm wide and subfloor spaces where the minimum area of accessibility is not less than 400 mm high by 600 mm wide, providing the spaces or areas permit entry. The term 'readily accessible' also includes:

(a) accessible subfloor areas on a sloping site where the minimum clearance is not less than 150 mm high, provided that the area is not more than 2 metres from a point with conforming clearance (i.e. 400 mm high by 600 mm wide); and

(b) areas at the eaves of accessible roof spaces that are within the consultant's unobstructed line of sight and within arm's length from a point with conforming clearance (i.e. 600 mm high by 600 mm wide).

"Building and Site" means the inspection of the nominated residence together with relevant features including any car accommodation, detached laundry, ablution facilities and garden sheds, retaining walls more than 700 mm high, paths and driveways, steps, fencing, earth, embankments, surface water drainage and stormwater run-off within 30 m of the building, but within the property boundaries.

For the Timber Pest Report, the term "Building and Site" is extended to include the main building (or main buildings in the case of a building complex) and all timber structures (such as outbuildings, landscaping, retaining walls, fences, bridges, trees and stumps with a diameter greater than 100 mm and timber embedded in soil) and the land within the property boundaries up to a distance of 50 metres from the main building(s).

The inspection did not include areas, which were inaccessible, not readily accessible or obstructed at the time of inspection. Areas, which are not normally accessible, were not inspected and include - but not limited to - the interior of a flat roof or beneath a suspended floor filled with earth. Obstructions are defined as any condition or physical limitation which inhibits or prevents inspection and may include - but are not limited to - roofing, fixed ceilings, wall linings, floor coverings, fixtures, fittings, furniture, clothes, stored articles/materials, thermal insulation, sarking, pipe/duct work, builder's debris, vegetation, pavements or earth.

## Areas Inspected

The inspection covered the Readily Accessible Areas of the property

- Roof exterior
- Building interior
- Building exterior
- Roof space
- Outbuildings
- The site

## Areas not inspected

The inspection did not include areas, which were inaccessible, not readily accessible or obstructed at the time of inspection. The Consultant did not move or remove any obstructions which may be concealing evidence of defects. Areas, which are not normally accessible, were not inspected. Evidence of defects in obstructed or concealed areas may only be revealed when the items are moved or removed or access has been provided.

## Obstructions and Limitations

The following obstructions may conceal defects:

- Ceilings
- Floor coverings
- Furniture
- Flooring
- Stored articles in cupboards
- Stored articles in wardrobes
- Wall linings
- Built up areas abutting the building
- Curtains / blinds
- Fittings
- Brickwork
- Built-in cupboards
- Decking
- Duct work
- Paved areas abutting the building
- Vegetation
- Pipe work
- Thermal insulation
- Above safe working height

Obstructions increase the risk of undetected defects, please see the overall risk rating for undetected defects.

## Inaccessible Areas

The following areas were inaccessible:

- Areas of scillion or flat roof
- Areas of low roof pitch
- Wall exterior due to obstructions
- Water Proof Membranes
- Ceiling cavities
- Wall Cavities
- Vapour Barrier
- Below ground level
- Above safe working height
- Lack of suitable access or entry point
- Ceiling cavity access was restricted by approx 75%
- Subfloor access was restricted by approx 25%

# Summary

---

SUMMARY INFORMATION: The summary below is used to give a brief overview of observations made in each inspection area. The items listed in the summary are noted in detail under the applicable sub headings within the body of the report. The summary is NEVER to be relied upon as a comprehensive report and the client MUST read the entire report and not rely solely on this summary. If there is a discrepancy between the information provided in this summary and that contained within the body of the Report, the information in the body of the Report shall override this summary. ## Additional specialist inspections

It is Strongly Recommended that the following Inspections and Reports be obtained prior to any decision to purchase the Property and/or before settlement. Obtaining these reports will better equip the purchaser to make an informed decision.

- As per the recommendation in the defects statement
- Obstructed Areas or areas not accessible
- Plumber ( Inspection of underground drainage recommended )

## Undetected defect risk assessment

Due to the level of accessibility for inspection including the presence of obstructions, the overall degree of risk of undetected structural damage and conditions conducive to structural damage was considered:

### **HIGH**

A further inspection is strongly recommended of those areas that were not readily accessible and of inaccessible or obstructed areas once access has been provided or the obstruction removed. This will involve a separate visit to the site, permission from the owner of the property and additional cost.

Unless stated otherwise, any recommendation or advice given in this Report should be implemented as a matter of urgency.

# Significant Items

The following items and matters were reported on in accordance with the Scope of Inspection. For building elements not identified in this Condition Report, monitoring and normal maintenance must be carried out.

## Serious Safety Hazard

### Serious Safety Hazard 1.01

**Location:** The site

**Finding:** Stairs - Not constructed to current industry standards.

It was noted at the time of inspection that the stairs that have been installed to the dwelling have been poorly constructed, creating a potential trip hazard for users of the staircase. According to normal building practices all stairs should be measured and levelled to exact heights so to prevent tripping as well have a minimum tread/step width of 240mm and a maximum rise/height of 190mm.

Although retrospective works may not be relevant or cost efficient, replacement of the stairs advised. Consultation with a qualified carpenter as to the cost of potential solutions is recommended as soon as possible.

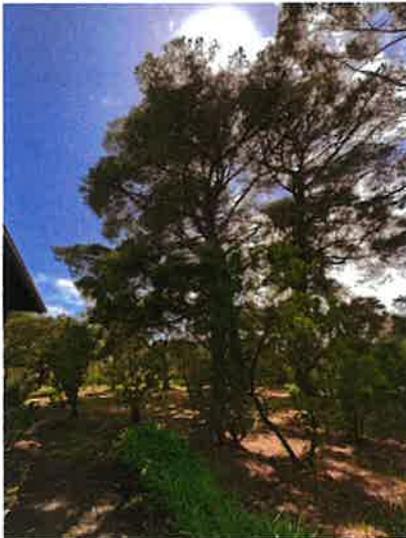

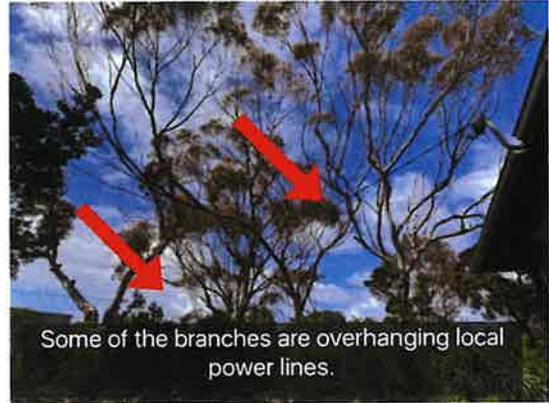

## Serious Safety Hazard 1.02

**Location:** The site

**Finding:** Trees - Falling vegetation

It was observed at the time of inspection that there is evidence where deteriorated tree branches / vegetation exist throughout the property. The vegetation will require trimming / removal. A specialist arborist should be engaged as soon as possible to rectify this issue.

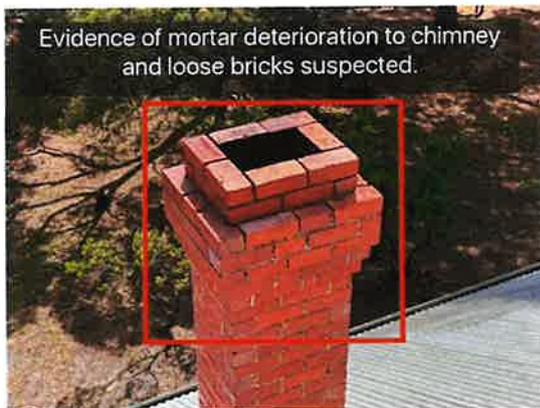

## Serious Safety Hazard 1.03

**Location:** The site  
**Finding:** Brickwork - Deteriorated mortar

Mortar or bedding, is the material which fills joints and intersections between bricks in masonry walls and structures. Sections of the mortar in the brickwork were identified as having deteriorated, which is generally expected for a property of this age.

Mortar may deteriorate as a result of age of the building materials, minor movement in bricks or frequent exposure to weathering. Mortar should be replaced to ensure the bricks remain in their intended location and to prevent gaps, which would allow water or moisture ingress and secondary damage as a result.

Mortar deterioration can be addressed by a brick layer where areas of deterioration are localised and easily accessible. Alternatively appointment of a registered builder is advised to repoint large areas of decayed mortar. Where secondary structural defects have become evident consultation with a structural engineer may be required.

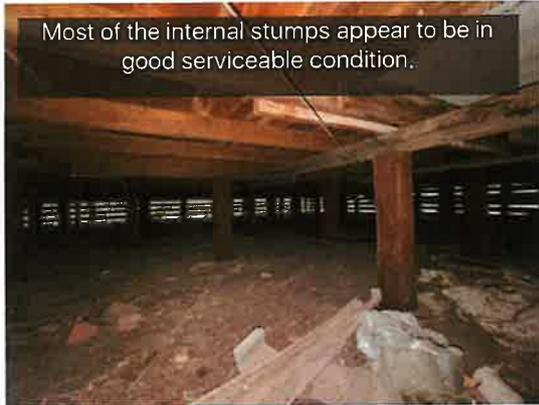

## Major Defect

### Major Defect 2.01

**Location:** Subfloor  
**Finding:** Timber stumps - Suspected deterioration

It was noted that the property has timber stumps. Inspection of the condition of the timber stumps - below the surface of the ground - is excluded from the scope of this report. Where timber stumps are failing replacement of stumps may be required in the short- to medium-term future. Timber stumps are no longer used in current building practices due to their susceptibility to wood rot and deterioration over time. The client should be prepared that in purchasing a property with timber stumps, that the need to either partially or fully restump the property in the short- to medium-term future is likely.

## Major Defect 2.02

**Location:** Subfloor  
**Finding:** Termite Damage/workings ( Structural )

Despite no live termite or timber pest activity been identified, previous termite damage was found in this area. This damage is considered to be inactive but structural in nature. It was however noted that damaged sections of the structure have been either replaced or reinforced with new timbers.

It is highly recommended that advise from the home owner be given with regard to the reparative works that have been completed and any permits or certificates that may have been issued by the builder to complete such works.

Due to the nature of Termites it is highly likely that further damage may be present to areas that are not readily accessible. It is advised that the area be visually inspected frequently to ensure that the condition of the affected building materials does not worsen and that there is no further termite activity.

The homeowner should comply with instructions and recommendations as per the warranty provided by the pest control company and continue to monitor area's which have conditions conducive to termite activity.

Minor Defect

## Minor Defect 3.01

**Location:** Some Areas

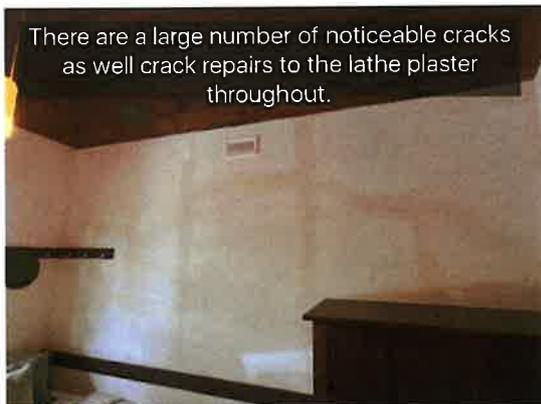

**Finding:** Cracking - Damage Category 2 - Noticeable ( up to 5mm )

Noticeable cracks are a common occurrence as a result of many primary defects . Such courses may include age, general wear and tear, expected building movement, general expansion contraction of building materials in different weather conditions, and/or minor failings in the installation or application of building materials.

Noticeable cracks may result in minor sticking or jamming of associated doors and windows which require easement. However noticeable cracks are easily filled and repaired. Plasterer can be consulted to install an expansion joint at this point to allow for this movement during different weather conditions

Monitoring of all cracking should be conducted frequently. Always can contact the building inspector should cracks widen lengthen or become more near but numerous. Additionally your building inspector should be contacted if associated building elements such as doors and windows become more difficult to operate overtime.

Other trades people such as carpenters, painters and plasterers should be appointed to perform remedial works as necessary !

### Minor Defect 3.02

**Location:** The site  
**Finding:** Flooring - Squeaking

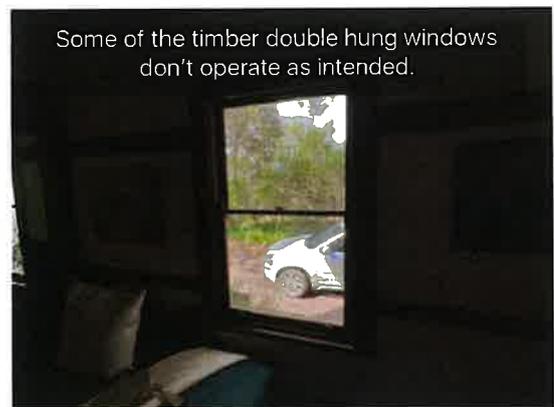

It was noted at the time of inspection that some of the internal floors as well the stairs are squeaky when walked across. This is quite common in older homes where there has been minor building movement as well settlement and shrinking of the timber frame and subfloor structure. Works to reduce the noise can be completed by a registered builder, at client discretion.

### Minor Defect 3.03

**Location:** Some Areas  
**Finding:** Door and windows – difficult to operate

A number of Doors and Windows to the dwelling were difficult to operate during standard operation. This defect inhibits the functionality of the affected building element as well as creating potential for secondary defects to associated building elements. A door that binds may have several causes, ranging from poor installation of the door or deteriorated hinges. Where door binding/jamming appears to indicate major structural issues, a registered structural engineer should be appointed to provide scope of rectification works at client discretion.

### Minor Defect 3.04

**Location:** Roofspace  
**Finding:** Insulation - Inadequate

Upon inspection of the roof void it was noted that there is a lack of adequate insulation. Insufficient insulation will result in a comparatively higher energy efficiency costs. The level of insulation in the property does not meet current Australian Standards. Installation of adequate insulation is required and should be conducted a professional contractor. Caution should be exercised when accessing the roof void, do not attempt to stand on the framework to the underside of the trusses and be aware there is a potential for electric shock if contact is made with exposed or faulty electrical wiring.

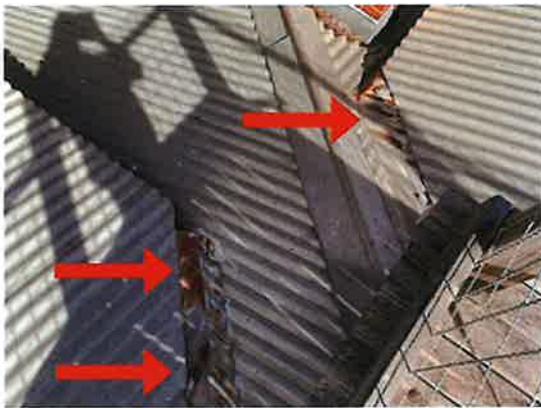

### Minor Defect 3.05

**Location:** Roof exterior  
**Finding:** Roof plumbing - Rusted or corroded

The roof plumbing has areas of rust and corrosion. It is suspected that this has been caused by blockages, resulting in pooling or standing water, that have prematurely rusted elements of the roof plumbing. Rusted roof plumbing will generally develop holes and leaks that can affect other building elements with poor drainage of storm water. A licensed plumber or specialist roof restoration company should be appointed to undertake these works. It is advised that such works be completed as soon as possible to prevent any further damage and deterioration.

### Minor Defect 3.06

**Location:** The site

**Finding:** Water leak - Inactive

While the damage in this area appears to be from an old inactive water leak, the area should be monitored frequently for the recurrence of any dampness. Replacement of previously affected building elements is at client discretion.

Alternatively where the property has been left vacant for a prolonged period of time we recommend a further more invasive inspection. Eg, leak testing by a Licensed Plumber and/or removal of obstructions or wall linings around the damaged area may reveal further damage which has been concealed.

A more significant or major defect may be identified at this time.

### Minor Defect 3.07

**Location:** Some Areas  
**Finding:** Damage to Masonry Walls ( Cracks )- Category 2

It has been observed that damage to masonry walls caused by movement of slabs footings or other causes has occurred. The degree of damage falls within category 2, described as noticeable cracks which are easily filled. Such cracking make holes doors and all windows to stick slightly and I generally up to 5 mm in width.

Damage of this category is required to be monitored for a period of 12 months, after which time a crack rated a category 3 or above is a defect requiring rectification such as minor repairs and repointing.

Always contact your building inspector should cracks widen, lengthen or grow more numerous.

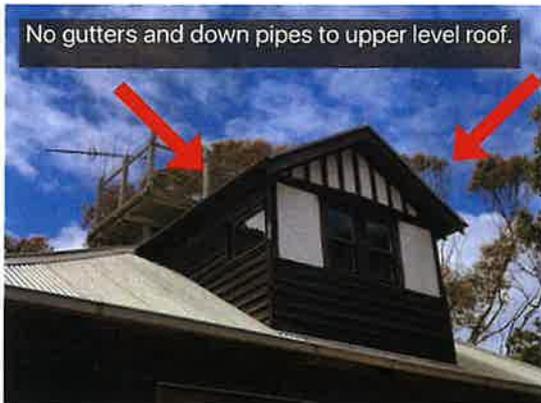

### Minor Defect 3.08

**Location:** The site  
**Finding:** Stormwater drain - Not connected

The roof plumbing is not adequately connected to stormwater drainage in this area. This disconnection negatively impacts the functional capacity of the roof plumbing. Where roof plumbing doesn't drain adequately, the area at the base perimeter can become excessively damp. It is highly recommended that a plumber be appointed to further inspect the area and to install adequate drainage equipment where necessary.

### Minor Defect 3.09

**Location:** The site  
**Finding:** Timber - exposed to weather

External timbers that are frequently exposed to harsh weather conditions require adequate protection in order to maintain their condition. Where timbers have not been painted or treated adequately, general deterioration is likely to occur at an accelerated rate. If left unattended, replacement of these timbers is likely to be necessary in the short-term future. Adequate treatment of these timbers is required as soon as possible by a painting contractor or general handyman.

### Minor Defect 3.10

**Location:** The site  
**Finding:** Roof plumbing - Flashing inadequate

Some sections of the roof are missing or have inadequate roof flashings. Flashings are metal and other materials which are applied to seals and intersections between roof coverings and building elements. They are designed to aid in the weatherproofing of roof joins. Flashings that are not installed adequately or missing are likely to result in water penetration to the interior of the property. The roofing plumber should be appointed as soon as possible to install relevant roof plumbing materials, ensuring that no further damage is sustained.

## Additional comments

---

It is important that this report is read in its entirety and that all recommendations be carried out so to prevent any future degradation of building elements, safety hazards or loss of amenity.

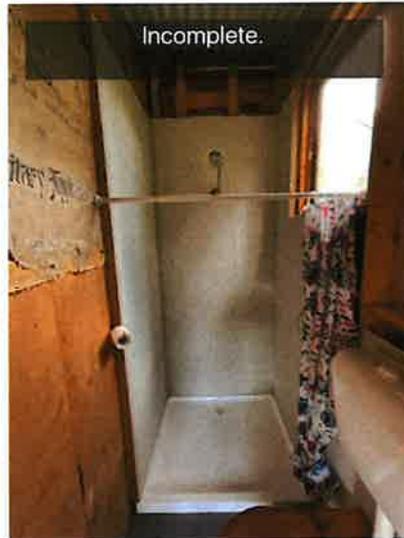

For your information

### For your information 4.01

**Location:** Wet Areas  
**Finding:** Bathroom - Shower condition

At the time of inspection it was noted that the tiles grout and sealant to the shower recess are in good condition with no evidence of excessive moisture or water damage identified. Always ensure that tiles, grout and sealant are well maintained and kept in good condition at all times to prevent future moisture issues.

## For your information 4.02

- Location:** Electrical Switchboard
- Finding:** Electrical switchboard - Safety switch or RCD installed

Safety switches are designed to identify any faults in the electrical circuit throughout the house and switch off the power accordingly. This is a safety measure that is aimed at preventing any personal injury that may result when attempting to operate faulty switches or appliances. In addition, each State and Territory has legislation in place with different requirements that make it mandatory under certain circumstances to have a safety switch installed.

### For your information 4.03

**Location:** Wet Areas  
**Finding:** Inspection of plumbing wastes

It must be noted inspection of all plumbing waste to the dwelling showed no evidence of leaks or damp identified to all areas.

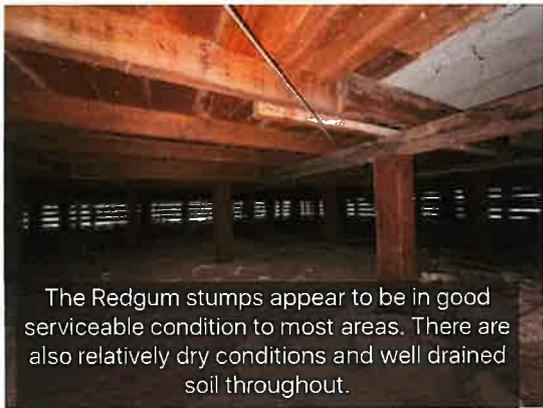

## For your information 4.04

**Location:** All Internal Areas

**Finding:** Floor Levels - Timber & Concrete Stumps.

At the time of inspection a series of levels were taken throughout the dwelling with all areas being either level or within an acceptable deviation.  
Please note a Lasertec instrument is used to assess floor levels ( at the time of inspection ) and is limited to line of sight. Eg, the laser doesn't bend around corners.  
It gives a broad assessment of the footing levels of the dwelling only !

Also more recently installed concrete stumps to some areas.

## For your information 4.05

**Location:** The site  
**Finding:** Electrical / Plumbing - Under ground drainage

All appliances need to be serviced and maintained in good working order. Plumbing and electrical inspections are outside the scope of this type of building inspection and must be conducted by a Licensed and registered Trades person. It is highly recommended that the client makes arrangements to have all appliances checked to ensure that the appliances are working safely and efficiently.

Please note that inspection of all concealed plumbing as well underground drainage including stormwater and sewerage pipes is excluded from this report. In any case it is highly recommended that the purchaser engage a Licensed and Qualified Plumber to complete an invasive inspection with a CCTV camera to all underground plumbing prior to purchase.

Pressure testing of mains water pipes to the property may also identify any pressure issues related to leaks or poor connections in concealed areas Eg, subfloors and roof spaces.

When purchasing a property with ceramic pipes the need to either repair or replace them in the short to medium term future can be expected due to their susceptibility of becoming damaged or obstructed, highlighting the need to get these checked prior to purchase.

A qualified plumber should be appointed to further inspect the property and perform any remedial works as necessary. Water damage and secondary defects are likely to occur if left unmanaged.

## For your information 4.06

**Location:** Outbuildings  
**Finding:** Elevated Structure Inspection

Where an elevated structure ( deck, balcony, veranda, etc ) is present, and this elevated structures designed to accomodate people, you must have this structure checked by an Engineer or other suitably qualified person.

You should always arranged annual inspections of the structure by an engineer or a suitably qualified person to ensure any maintenance, that maybe necessary, is identified.

Nothing contained in this report should be taking as an indicator that an assessment has been made, on any elevated structure, as suitable for any specific number of people or purpose. This can only be done by a qualified engineer. For the purpose of this report the structure includes elevated decks, balconies, Veranda's, handrails, stairs and balustrades.

**Location:** Outside Bedrooms  
**Finding:** Smoke Detectors and Alarms

Reporting on Smoke Detectors or Alarms, including hard wired smoke detection systems and their legislative requirements, is outside the Scope of this Report. Please note that this defect is highlighted as a caution only. Always ensure sufficient working and suitable smoke detectors are installed prior to occupying any building. Additionally, it is advised that all smoke detectors be tested by the homeowner. Please refer to AS3786 and state based legislation, which may also apply.

### For your information 4.08

**Location:** All areas  
**Finding:** Operation of Appliances

At the time of inspection it was noted most of the appliances were operable and in good condition. Appliances that were either not tested or not working have been noted accordingly ! Please ensure that all appliances are operable prior to settlement or occupancy.

All working.

Both exhaust fans were working.

Turned on but not tested.

There was hot water.

## For your information 4.10

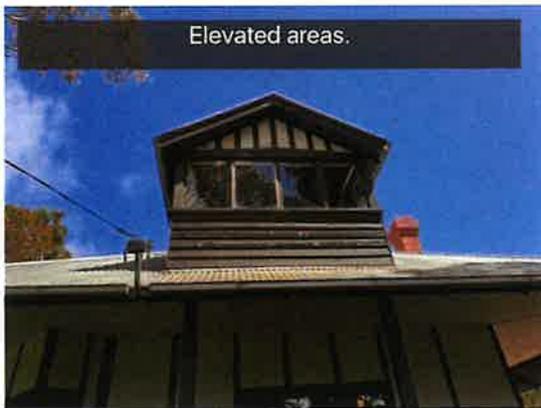

**Location:** The site

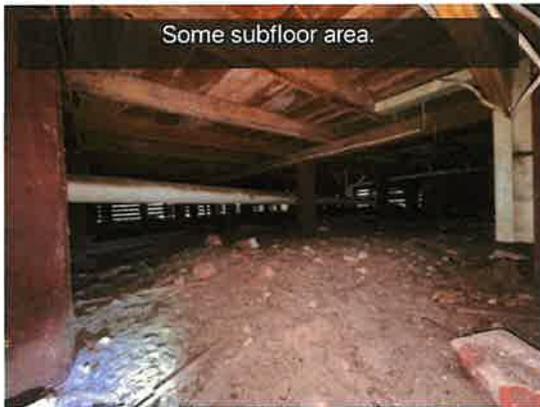

**Finding:** Additional Photos - Obstructions and Limitations

These photos are an indication of the obstructions and limitations which impeded full inspection of the property at the time of inspection. These obstructions can hide an array of defects and should be removed where possible to allow for further inspection to be carried out.

A reinspection is highly recommended once the areas are made accessible.

## Conclusion

---

Your attention is drawn to the advice contained in the Terms and Conditions of this Report including any special conditions or instructions that need to be considered in relation to this Report.

In the opinion of this Consultant:

The incidence of Major Defects in this property in comparison to the average condition of similar buildings of approximately the same age that have been reasonably well maintained was considered:

The incidence of Minor Defects in this property in comparison to the average condition of similar buildings of approximately the same age that have been reasonably well maintained was considered:

In conclusion, following the inspection of surface work in the readily accessible areas of the property, the overall condition of the building relative to the average condition of similar buildings of approximately the same age that have been reasonably well maintained was considered:

**Good condition**

## Building consultant's summary

**In summary, the building when compared to others of similar age and construction is in good condition.**

# Summary

---

SUMMARY INFORMATION: The summary below is used to give a brief overview of observations made in each inspection area. The items listed in the summary are noted in detail under the applicable sub headings within the body of the report. The summary is NEVER to be relied upon as a comprehensive report and the client MUST read the entire report and not rely solely on this summary. If there is a discrepancy between the information provided in this summary and that contained within the body of the Report, the information in the body of the Report shall override this summary. (See definitions & information below the summary to help understand the report)

Evidence of active (live) termites	<b>Not Found</b>
Evidence of termite activity (including workings) and/or damage	<b>Found</b>
Evidence of a possible previous termite management program	<b>Not Found</b>
Evidence of chemical delignification damage	<b>Not Found</b>
Evidence of fungal decay activity and/or damage	<b>Found</b>
Evidence of wood borer activity and/or damage	<b>Found</b>
Evidence of conditions conducive to timber pest attack	<b>Found</b>
Next inspection to help detect a future termite attack is recommended in	<b>2 Years</b>

## Undetected timber pest defect risk assessment

Due to the level of accessibility for inspection including the presence of obstructions, the overall degree of risk of undetected timber pest attack and conditions conducive to timber pest attack was considered:

### **HIGH**

A further inspection is strongly recommended of those areas that were not readily accessible and of inaccessible or obstructed areas once access has been provided or the obstruction removed. This will involve a separate visit to the site, permission from the owner of the property and additional cost.

Unless stated otherwise, any recommendation or advice given in this Report should be implemented as a matter of urgency.

For further information including advice on how to help protect against financial loss due to timber pest attack.

# Significant Items

---

The following items and matters were reported on in accordance with the Scope of Inspection. For building elements not identified in this Condition Report, monitoring and normal maintenance must be carried out.

## Timber pest attack

### ACTIVE (LIVE) TERMITES

Important Note. As a delay may exist between the time of an attack and the appearance of telltale signs associated with an attack, it is possible that termite activity and damage exists though not discernible at the time of inspection.

No evidence was found

### TERMITE WORKINGS AND/OR DAMAGE

#### Timber pest attack 5.01

**Location:**

The site

**Finding:**

Evidence of termite damage - minor ( non structural )

Despite no live termite or timber pest activity being indicated, previous termite damage was found to have affected this area. This damage is considered to be inactive and is minor in nature. However where previous termite activity has been detected it is highly likely that there could be more significant damage to areas that are otherwise not accessible during a routine ( visual ) inspection, Eg wall and ceiling cavity's, inaccessible roof space and subfloor areas !

It is therefore highly advised that the vendor disclose any information regarding previous termite activity including eradication and reparative works associated with the affected area.

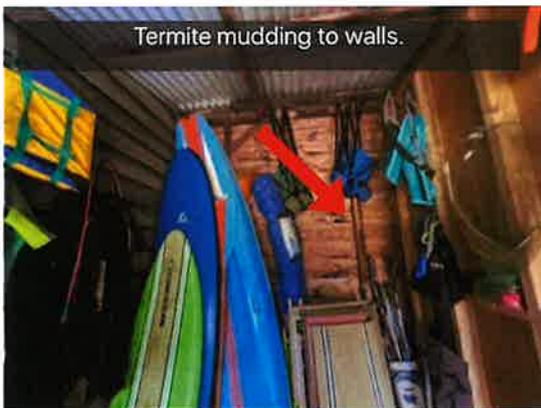

It is also advised that the area be visually inspected frequently to ensure that the condition of the affected building materials does not worsen. At the time of inspection the damage is not structural and is only considered to be superficial.

A building contractor may be appointed to provide a further more invasive inspection at client discretion.

Termite mudding.

Termite mudding to walls.

Termite damage near leaking down pipe.

## Timber pest attack 5.02

**Location:** Subfloor  
**Finding:** Termite Damage/workings ( Structural )

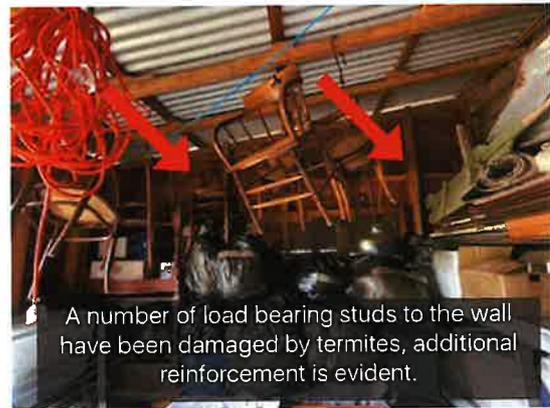

Despite no live termite or timber pest activity been identified, previous termite damage was found in this area. This damage is considered to be inactive but structural in nature. It was however noted that damaged sections of the structure have been either replaced or reinforced with new timbers.

It is highly recommended that advise from the home owner be given with regard to the reparative works that have been completed and any permits or certificates that may have been issued by the builder to complete such works.

Due to the nature of Termites it is highly likely that further damage may be present to areas that are not readily accessible. It is advised that the area be visually inspected frequently to ensure that the condition of the affected building materials does not worsen and that there is no further termite activity.

The homeowner should comply with instructions and recommendations as per the warranty provided by the pest control company and continue to monitor area's which have conditions conducive to termite activity.

### CHEMICAL DELIGNIFICATION

No evidence was found

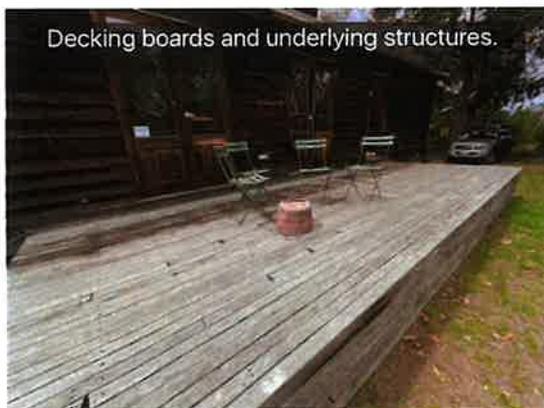

### FUNGAL DECAY

### Timber pest attack 5.03

**Location:** The site

**Finding:** Wood rot

Wood rot which also known as Fungal Decay, occurs when timbers and other cellulose type building materials are exposed to damp conditions on a continual basis. Replacement of affected timbers may then be a necessary step in protecting surrounding building elements from such deterioration. Where wood rot is present to any structural timber, the replacement of the affected timber is required immediately. A qualified carpenter or registered builder may also be required to replace affected building materials. Consultation with a structural engineer is highly advised as soon as possible.

## WOOD BORERS

### Timber pest attack 5.04

**Location:**

The site

**Finding:**

Evidence of wood Borer damage identified

Wood borer, small Beetles that colonise an exposed timber elements are a common timber pest that are regularly mistaken for termites. Although wood borer activity is generally not detrimental to the affected timber they may lead to serious damage and necessitate replacement of certain building elements if left unattended.

The Lyctid borer which generally attacks hardwoods such as subfloor and roofing structures is generally identified by fine dust surrounding the affected timbers.

The other commonly known borer, the Anobium borer is more likely to attack floor boards and may cause severe structural damage to flooring areas.

As no live wood Borer activity was identified treatment is not required at this time. Replacement of affected timbers maybe considered by the client for superficial reasons.

Conditions conducive to timber pest attack

**LACK OF ADEQUATE SUBFLOOR VENTILATION**

No evidence was found

**THE PRESENCE OF EXCESSIVE MOISTURE**

## Conditions conducive to timber pest attack 5.05

**Location:** Some Areas  
**Finding:** Damp or wet-leak

Damp or wet conditions are generally a direct result of poor drainage, an active leak, or poor ventilation (or a combination of the three). Dry conditions should be maintained to prevent secondary building defects from developing.

If left unmanaged damp or wet conditions may have many consequences including the development of fungal decay and/or wood rot as well as providing an environment that may be conducive to termite and timber pest attack.

A qualified plumber should be appointed to identify the cause of the excessive moisture in order to prevent further damage. The water leak should be resolved prior to any repairs of the damaged area which may require localised replacement of building materials and re-finishing.

## BRIDGING OR BREACHING OF TERMITE MANAGEMENT SYSTEMS AND INSPECTION ZONES

No evidence was found

## UNTREATED OR NON-DURABLE TIMBER USED IN A HAZARDOUS ENVIRONMENT

No evidence was found

## OTHER CONDITIONS CONDUCTIVE TO TIMBER PEST ATTACK

### Conditions conducive to timber pest attack 5.06

**Location:** All External Areas

**Finding:** Garden Beds

Garden Beds and especially mulched areas and non durable timbers in direct contact with the ground provide opportunities for concealed Termite activity and/or entry and are likely to be subject to premature rot and decay as the soil retains moisture or damp conditions against the timbers.

Remove all untreated timber that is in direct contact with external grounds. Consider replacement with more durable materials i.e. treated timber or non-timber elements. Frequent pest inspections are advised to readily identify any termite activity in these areas.

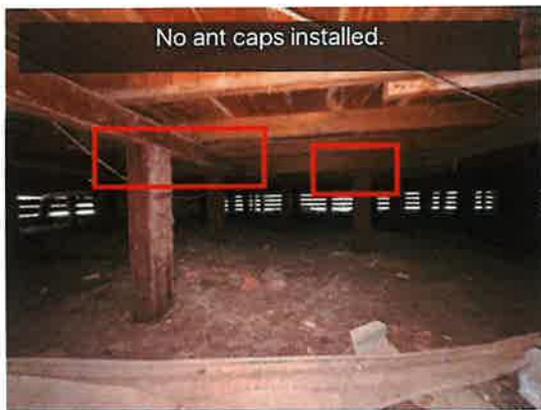

## Conditions conducive to timber pest attack 5.07

**Location:** Subfloor  
**Finding:** Ant caps - Not Installed

Ant caps have not been installed to subfloor structure at the time of inspection. Generally, Ant caps are installed to the intersection between the top of the stumps ( or piers ) and the subfloor structures.

Installed during the construction process, Ant caps are designed to easily identify termite or pest ingress from stumps to the adjoining bearers.

Where Ant caps have not been installed, frequent monitoring of these areas should be carried out in order to identify signs of termite or timber pest workings.

## Conditions conducive to timber pest attack 5.08

**Location:** Subfloor  
**Finding:** Subfloor -Debris

An array of debris was found in the subfloor area at the time of inspection. Debris in this area restricts subfloor ventilation and creates potential for concealed pest entry. Stored timbers and other materials may also make the area susceptible to termite activity and would rot.

A clear and empty subfloor will be better ventilated and easier to maintain in a dry condition. The removal of any timber debris is vital in minimising the risk of termite or Wood Borer activity.

Debris in the subfloor should be removed as soon as possible. Depending on the location and amount of debris and stored items the homeowner may elect to undertake this task. Alternatively there are a large number of rubbish removal subcontractors that could undertake these works.

## Serious Safety Hazards

No evidence of Serious Safety Hazards were found

## For your information

### **SUBTERRANEAN TERMITE MANAGEMENT PROPOSAL**

#### **For your information 5.09**

**Location:** The site  
**Finding:** Subterranean Termite Prevention Proposal

A proposal in accordance with Australian Standard AS 3660.2 to aid the management of the risk of future subterranean termite access to buildings and structures.

Such a proposal is recommended to all properties that have a condition that may be conducive to termite or timber pest activity. The prevention of such infestations is far easier to manage than the management of live termite activity on the property.

Preventative measures may include a post-Construction installation of a chemical termite barrier or the prevention of excess moisture in high-risk areas. Generally where there is a Chemical Termite Barrier installed to the property a durable sticker will be located inside the meter box. There was no sticker present !

## PREVIOUS TERMITE MANAGEMENT PROGRAM

No evidence was found

## OBSERVATIONS

### For your information 5.10

**Location:** All Accessible Areas

**Finding:** Termite Inspection

A thorough inspection of all internal and external " accessible " timbers was performed throughout the property. All areas of the dwelling are checked with particular attention paid to wet areas which were closely check for excessive levels of moisture anomalies. In an attempt to identify the presence of hidden timber pest activity a variety of techniques are adopted to identify irregularities including a moisture meter to help identify conducive areas around the building, sounding of all accessible timber elements using a sounding device along with close visual assessment of materials affected by moisture or signs of deformity. Also close examination of external areas looking for timbers that are in direct contact with the ground where termite activity is highly likely. Any damp or rotting timbers, trails and bridging constructed by termites and trees fencing and external structures are examine closely for timber pest damage. Generally the moisture content variation at the time of inspection was quite low with the range between 7% and 18% which is considered acceptable.

### For your information 5.11

**Location:** The site  
**Finding:** Termite damage

Damage caused by termites that occurs in areas not designated by the relevant council as a termite risk area is the responsibility of the owner.  
Damage caused by termites in buildings within designated termite risk areas is defective if the termite management system has not been installed in accordance with the Building Code of Australia.  
Damage caused by termites in buildings within designated termite risk areas is not defective if the termite management system has not been regularly maintained by the owner, made non-compliant by the owner after handover, or not maintained in accordance with the manufacturer's instructions and AS 3660.2.

## For your information 5.12

**Location:** The site

**Finding:** Termites

Termites are a widespread problem in all areas of Australia and it is the owner's responsibility to regularly inspect the property, including sub-floor inspections, to detect evidence of termite attack.

Termites can circumvent properly executed termite protection measures, such as building tunnels around barriers. Tunnels can be identified through regular inspections and, if found, the termite nest should be located and destroyed by a suitably qualified pest controller.

Termite management systems are intended to reduce the risk of damage to the structural members of buildings by deterring concealed entry of termites into a building. Termite management systems cannot prevent the entry of termites into the building. In Victoria, a termite management system is only required to be installed where the primary building elements are susceptible to termite attack, as defined in the Building Code of Australia.

## Conclusion

---

Your attention is drawn to the advice contained in the Terms and Conditions of this Report including any special conditions or instructions that need to be considered in relation to this Report.

The following Timber Pest remediation actions are recommended:

1. Yes - treatment of Timber Pest Attack is required.
2. In addition to this Report a Subterranean Termite Management Proposal to help manage the risk of future subterranean termite access to buildings and structures is recommended.
3. Yes - removal of Conditions Conducive to Timber Pest Attack is necessary.
4. Due to the susceptibility of the property to sustaining Timber Pest Attack the next inspection is recommended in 2 Years

# Risk management options

---

To help protect against financial loss, it is essential that the building owner immediately control or rectify any evidence of destructive timber pest activity or damage identified in this Report. The Client should further investigate any high risk area where access was not gained. It is strongly advised that appropriate steps be taken to remove, rectify or monitor any evidence of conditions conducive to timber pest attack.

To help minimise the risk of any future loss, the Client should consider whether the following options to further protect their investment against timber pest infestation are appropriate for their circumstances:

Undertake thorough regular inspections at intervals not exceeding twelve months or more frequent inspections where the risk of timber pest attack is high or the building type is susceptible to attack. To further reduce the risk of subterranean termite attack, implement a management program in accordance with Australian Standard AS 3660. This may include the installation of a monitoring and/or baiting system, or chemical and/or physical management system. However, AS 3660 stresses that subterranean termites can bridge or breach management systems and inspection zones and that thorough regular inspections of the building are necessary.

If the Client has any queries or concerns regarding this Report, or the Client requires further information on a risk management program, please do not hesitate to contact the person who carried out this Inspection.

# Definitions to help you better understand this report

---

## ----- PROPERTY INSPECTION REPORT -----

"Client" The person or persons, for whom the Inspection Report was carried out or their Principal (i.e. the person or persons for whom the report is being obtained).

"Building Consultant" A person, business or company who is qualified and experienced to undertake a pre-purchase inspection in accordance with Australian Standard AS 4349.1-2007 'Inspection of Buildings. Part 1: Pre-Purchase Inspections – Residential Buildings'. The consultant must also meet any Government licensing requirement, where applicable.

"Building and Site" The inspection of the nominated residence together with relevant features including any car accommodation, detached laundry, ablution facilities and garden sheds, retaining walls more than 700 mm high, paths and driveways, steps, fencing, earth, embankments, surface water drainage and stormwater run-off within 30 m of the building, but within the property boundaries.

"Readily Accessible Areas" Areas which can be easily and safely inspected without injury to person or property, are up to 3.6 metres above ground or floor levels or accessible from a 3.6 metre ladder, in roof spaces where the minimum area of accessibility is not less than 600 mm high by 600 mm wide and subfloor spaces where the minimum area of accessibility is not less than 400 mm high by 600 mm wide, providing the spaces or areas permit entry. Or where these clearances are not available, areas within the consultant's unobstructed line of sight and within arm's length.

"Structure" The loadbearing part of the building, comprising the Primary Elements.

"Primary Elements" Those parts of the building providing the basic loadbearing capacity to the Structure, such as foundations, footings, floor framing, loadbearing walls, beams or columns. The term 'Primary Elements' also includes other structural building elements including: those that provide a level of personal protection such as handrails; floor-to-floor access such as stairways; and the structural flooring of the building such as floorboards.

"Structural Damage" A significant impairment to the integrity of the whole or part of the Structure falling into one or more of the following categories:

(a) Structural Cracking and Movement – major (full depth) cracking forming in Primary Elements resulting from differential movement between or within the elements of construction, such as foundations, footings, floors, walls and roofs.

(b) Deformation – an abnormal change of shape of Primary Elements resulting from the application of load(s).

(c) Dampness – the presence of moisture within the building, which is causing consequential damage to Primary Elements.

(d) Structural Timber Pest Damage – structural failure, i.e. an obvious weak spot, deformation or even collapse of timber Primary Elements resulting from attack by one or more of the following wood destroying agents: chemical delignification; fungal decay; wood borers; and termites.

"Conditions Conducive to Structural Damage" Noticeable building deficiencies or environmental factors that may contribute to the occurrence of Structural Damage.

"Secondary Elements" Those parts of the building not providing loadbearing capacity to the Structure, or those non-essential elements which, in the main, perform a completion role around openings in Primary Elements and the building in general such as non-loadbearing walls, partitions, wall linings, ceilings, chimneys, flashings, windows, glazing or doors.

"Finishing Elements" The fixtures, fittings and finishes applied or affixed to Primary Elements and Secondary Elements such as baths, water closets, vanity basins, kitchen cupboards, door furniture, window hardware, render, floor and wall tiles, trim or paint. The term 'Finishing Elements' does not include furniture or soft floor coverings such as carpet and

tiles, trim or paint. The term 'Finishing Elements' does not include furniture or soft floor coverings such as carpet and lino.

"Major Defect" A defect of significant magnitude where rectification has to be carried out in order to avoid unsafe conditions, loss of utility or further deterioration of the property.

"Minor Defect" A defect other than a Major Defect.

"Serious Safety Hazard" Any item that may constitute an immediate or imminent risk to life, health or property. Occupational, health and safety or any other consequence of these hazards has not been assessed.

"Tests" Where appropriate the carrying out of tests using the following procedures and instruments:

(a) Dampness Tests means additional attention to the visual examination was given to those accessible areas which the consultant's experience has shown to be particularly susceptible to damp problems. Instrument testing using electronic moisture detecting meter of those areas and other visible accessible elements of construction showing evidence of dampness was performed.

(b) Physical Tests means the following physical actions undertaken by the consultant: opening and shutting of doors, windows and draws; operation of taps; water testing of shower recesses; and the tapping of tiles and wall plaster."

----- TIMBER PEST INSPECTION REPORT -----

"Timber Pest Attack" Timber Pest Activity and/or Timber Pest Damage.

"Timber Pest Activity" Telltale signs associated with 'active' (live) and/or 'inactive' (absence of live) Timber Pests at the time of inspection.

"Timber Pest Damage" Noticeable impairments to the integrity of timber and other susceptible materials resulting from attack by Timber Pests.

"Major Safety Hazard" Any item that may constitute an immediate or imminent risk to life, health or property resulting directly from Timber Pest Attack. Occupational, health and safety or any other consequence of these hazards has not been assessed.

"Conditions Conducive to Timber Pest Attack" Noticeable building deficiencies or environmental factors that may contribute to the presence of Timber Pests.

"Readily Accessible Areas" Areas which can be easily and safely inspected without injury to person or property, are up to 3.6 metres above ground or floor levels or accessible from a 3.6 metre ladder, in roof spaces where the minimum area of accessibility is not less than 600 mm high by 600 mm wide and subfloor spaces where the minimum area of accessibility is not less than 400 mm high by 600 mm wide, providing the spaces or areas permit entry. The term 'readily accessible' also includes:

(a) accessible subfloor areas on a sloping site where the minimum clearance is not less than 150 mm high, provided that the area is not more than 2 metres from a point with conforming clearance (i.e. 400 mm high by 600 mm wide); and

(b) areas at the eaves of accessible roof spaces that are within the consultant's unobstructed line of sight and within arm's length from a point with conforming clearance (i.e. 600 mm high by 600 mm wide).

"Client" The person or persons for whom the Timber Pest Report was carried out or their Principal (i.e. the person or persons for whom the report was being obtained).

"Timber Pest Detection Consultant" A person who meets the minimum skills requirement set out in the current Australian Standard AS 4349.3 Inspections of Buildings. Part 3: Timber Pest Inspection Reports or state/territory legislation requirements beyond this Standard, where applicable.

"Building and Site" The main building (or main buildings in the case of a building complex) and all timber structures (such as outbuildings, landscaping, retaining walls, fences, bridges, trees and stumps with a diameter greater than 100 mm and timber embedded in soil) and the land within the property boundaries up to a distance of 50 metres from the main building(s).

"Timber Pests" One or more of the following wood destroying agents which attack timber in service and affect its

"Timber Pests" One or more of the following wood destroying agents which attack timber in service and affect its structural properties:

- (a) Chemical Delignification - the breakdown of timber through chemical action
- (b) Fungal Decay - the microbiological degradation of timber caused by soft rot fungi and decay fungi, but does not include mould, which is a type of fungus that does not structurally damage wood.
- (c) Wood Borers - wood destroying insects belonging to the order 'Coleoptera' which commonly attack seasoned timber.
- (d) Termites - wood destroying insects belonging to the order 'Isoptera' which commonly attack seasoned timber.

"Tests" Additional attention to the visual examination was given to those accessible areas which the consultant's experience has shown to be particularly susceptible to attack by Timber Pests. Instrument Testing of those areas and other visible accessible timbers/materials/areas showing evidence of attack was performed.

"Instrument Testing" Where appropriate the carrying out of Tests using the following techniques and instruments:

- (a) electronic moisture detecting meter - an instrument used for assessing the moisture content of building elements;
- (b) stethoscope - an instrument used to hear sounds made by termites within building elements;
- (a) probing - a technique where timber and other materials/areas are penetrated with a sharp instrument (e.g. bradawl or pocket knife), but does not include probing of decorative timbers or finishes, or the drilling of timber and trees; and
- (d) sounding - a technique where timber is tapped with a solid object.

"Subterranean Termite Management Proposal" A written proposal in accordance with Australian Standard AS 3660.2 to treat a known subterranean termite infestation and/or manage the risk of concealed subterranean termite access to buildings and structures.

## Terms on which this report was prepared

---

----- PROPERTY INSPECTION REPORT -----

**SERVICE** As requested by the Client, the inspection carried out by the Building Consultant ("the Consultant") was a 'Standard Property Report'.

**PURPOSE OF INSPECTION** The purpose of this inspection is to provide advice to the Client regarding the condition of the Building and Site at the time of inspection.

**SCOPE OF INSPECTION** This Report only covers and deals with any evidence of: Major Defects in the condition of Primary Elements including Structural Damage and Conditions Conducive to Structural Damage; any Major Defect in the condition of Secondary Elements and Finishing Elements; collective (but not individual) Minor Defects; and any Serious Safety Hazard discernible at the time of inspection. The inspection is limited to the Readily Accessible Areas of the Building and Site (see Note below) and is based on a visual examination of surface work (excluding furniture and stored items), and the carrying out of Tests.

Note. With strata and company title properties, the inspection was limited to the interior and the immediate exterior of the particular residence inspected. Common property was not inspected.

**ACCEPTANCE CRITERIA** The building was compared with a building that was constructed in accordance with the generally accepted practice at the time of construction and which has been maintained such that there has been no significant loss of strength and serviceability.

Unless noted in "Special Conditions or Instructions", the Report assumes that the existing use of the building will continue.

This Report only records the observations and conclusions of the Consultant about the readily observable state of the property at the time of inspection. The Report therefore cannot deal with:

- (a) possible concealment of defects, including but not limited to, defects concealed by lack of accessibility,

(a) possible concealment of defects, including but not limited to, defects concealed by lack of accessibility, obstructions such as furniture, wall linings and floor coverings, or by applied finishes such as render and paint; and

(b) undetectable or latent defects, including but not limited to, defects that may not be apparent at the time of inspection due to seasonal changes, recent or prevailing weather conditions, and whether or not services have been used some time prior to the inspection being carried out.

These matters outlined above in (a) & (b) are excluded from consideration in this Report.

If the Client has any doubt about the purpose, scope and acceptance criteria on which the Report was based please discuss your concerns with the Consultant on receipt of the Report.

The Client acknowledges that, unless stated otherwise, the Client as a matter of urgency should implement any recommendation or advice given in this Report.

#### LIMITATIONS

The Client acknowledges:

1. 'Visual only' inspections are not recommended. A visual only inspection may be of limited use to the Client. In addition to a visual inspection, to thoroughly inspect the Readily Accessible Areas of the property requires the Consultant to carry out when ever necessary appropriate Tests.

2. This Report does not include the inspection and assessment of items or matters outside the scope of the requested inspection and report. Other items or matters may be the subject of a Special-Purpose Inspection Report, which is adequately specified (see Exclusions below).

3. This Report does not include the inspection and assessment of items or matters that do not fall within the Consultant's direct expertise.

4. The inspection only covered the Readily Accessible Areas of the property. The inspection did not include areas, which were inaccessible, not readily accessible or obstructed at the time of inspection. Obstructions are defined as any condition or physical limitation which inhibits or prevents inspection and may include – but are not limited to – roofing, fixed ceilings, wall linings, floor coverings, fixtures, fittings, furniture, clothes, stored articles/materials, thermal insulation, sarking, pipe/duct work, builder's debris, vegetation, pavements or earth.

5. Australian Standard AS4349.0-2007 Inspection of Buildings, Part 0: General Requirements recognises that a property report is not a warranty or an insurance policy against problems developing with the building in the future.

6. This Report was produced for the use of the Client. The Consultant is not liable for any reliance placed on this report by any third party.

#### EXCLUSIONS

The Client acknowledges that this Report does not cover or deal with:

- (i) any individual Minor Defect;
- (ii) solving or providing costs for any rectification or repair work;
- (iii) the structural design or adequacy of any element of construction;
- (iv) detection of wood destroying insects such as termites and wood borers;
- (v) the operation of fireplaces and chimneys;
- (vi) any services including building, engineering (electronic), fire and smoke detection or mechanical;
- (vii) lighting or energy efficiency;
- (viii) any swimming pools and associated pool equipment or spa baths and spa equipment or the like;
- (ix) any appliances such as dishwashers, insinkers, ovens, stoves and ducted vacuum systems;
- (x) a review of occupational, health or safety issues such as asbestos content, the provision of safety glass or the use of lead based paints;
- (xi) a review of environmental or health or biological risks such as toxic mould;
- (xii) whether the building complies with the provisions of any building Act, code, regulation(s) or by-laws;
- (xiii) whether the ground on which the building rests has been filled, is liable to subside, swell or shrink, is subject to landslip or tidal inundation, or if it is flood prone; and
- (xiv) in the case of strata and company title properties, the inspection of common property areas or strata/company records.

records.

Any of the above matters may be the subject of a special-purpose inspection report, which is adequately specified and undertaken by an appropriately qualified inspector.

----- TIMBER PEST INSPECTION REPORT -----

**SERVICE** As requested by the Client, the inspection carried out by the Timber Pest Detection Consultant ("the Consultant") was a "Pre-Purchase Standard Timber Pest Report".

**PURPOSE** The purpose of this inspection is to assist the Client to identify and understand any Timber Pest issues observed at the time of inspection.

**SCOPE OF INSPECTION** This Report only deals with the detection or non detection of Timber Pest Attack and Conditions Conducive to Timber Pest Attack discernible at the time of inspection. The inspection was limited to the Readily Accessible Areas of the Building & Site (see Note below) and was based on a visual examination of surface work (excluding furniture and stored items), and the carrying out of Tests.

Note. With strata and company title properties, the inspection was limited to the interior and the immediate exterior of the particular residence inspected. Common property was not inspected.

**ACCEPTANCE CRITERIA** Unless noted in "Special Conditions or Instructions", the building being inspected was compared with a similar building. To the Consultant's knowledge the similar building used for comparison was constructed in accordance with generally accepted timber pest management practices and has since been maintained during all its life not to attract or support timber pest infestation.

Unless noted in "Special Conditions or Instructions", this Report assumes that the existing use of the building will continue.

This Report only records the observations and conclusions of the Consultant about the readily observable state of the property at the time of inspection. This Report therefore cannot deal with:

- (a) possible concealment of timber pest attack, including but not limited to, timber pest attack concealed by lack of accessibility, obstructions such as furniture, wall linings and floor coverings, or by applied finishes such as render and paint; and
- (b) undetectable or latent timber pest attack, including but not limited to, timber pest attack that may not be apparent at the time of inspection due to seasonal changes, recent or prevailing weather conditions, and whether or not services have been used some time prior to the inspection being carried out.

These matters outlined above in (a) & (b) are excluded from consideration in this Report.

If the Client has any doubt about the purpose, scope and acceptance criteria on which this Report was based please discuss your concerns with the Consultant on receipt of this Report.

The Client acknowledges that, unless stated otherwise, the Client as a matter of urgency should implement any recommendation or advice given in this Report.

**LIMITATIONS**

The Client acknowledges:

1. This Report does not include the inspection and assessment of matters outside the scope of the requested inspection and report.
2. The inspection only covered the Readily Accessible Areas of the Building and Site. The inspection did not include areas which were inaccessible, not readily accessible or obstructed at the time of inspection. Obstructions are defined as any condition or physical limitation which inhibits or prevents inspection and may include – but are not limited to – roofing, fixed ceilings, wall linings, floor coverings, fixtures, fittings, furniture, clothes, stored articles/materials, thermal insulation, sarking, pipe/duct work, builder's debris, vegetation, pavements or earth.
3. The detection of drywood termites may be extremely difficult due to the small size of the colonies. No warranty of

insulation, sarking, pipe/duct work, builder's debris, vegetation, pavements or earth.

3. The detection of drywood termites may be extremely difficult due to the small size of the colonies. No warranty of absence of these termites is given.

4. European House Borer (*Hyloterpes bajulus*) attack is difficult to detect in the early stages of infestation as the galleries of boring larvae rarely break through the affected timber surface. No warranty of absence of these borers is given. Regular inspections including the carrying out of appropriate tests are required to help monitor susceptible timbers.

5. This is not a structural damage report. Neither is this a warranty as to the absence of Timber Pest Attack.

6. If the inspection was limited to any particular type(s) of timber pest (e.g. subterranean termites), then this would be the subject of a Special-Purpose Inspection Report, which is adequately specified.

7. This Report does not cover or deal with environmental risk assessment or biological risks not associated with Timber Pests (e.g. toxic mould) or occupational, health or safety issues. Such advice may be the subject of a Special-Purpose Inspection Report which is adequately specified and must be undertaken by an appropriately qualified inspector. The choice of such inspector is a matter for the Client.

8. This Report has been produced for the use of the Client. The Consultant or their firm or company are not liable for any reliance placed on this report by any third party.

#### EXCLUSIONS

The Client acknowledges that:

1. This Report does not deal with any timber pest preventative or treatment measures, or provide costs for the control, rectification or prevention of attack by timber pests. However, this additional information or advice may be the subject of a timber pest management proposal which is adequately specified.

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
  - Land tax that has been assessed but is not yet due,
  - Land tax for the current tax year that has not yet been assessed, and
  - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

## Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

## Information for the purchaser

4. Pursuant to section 96 of the *Land Tax Act 2005*, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge and Vacant Residential Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

## Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax including vacant residential land tax, interest and penalty tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
8. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

## For Information Only

LAND TAX CALCULATION BASED ON SINGLE OWNERSHIP

Land Tax = \$21,750.00

Taxable Value = \$2,400,000

Calculated as \$11,850 plus ( \$2,400,000 - \$1,800,000) multiplied by 1.650 cents.

VACANT RESIDENTIAL LAND TAX CALCULATION

Vacant Residential Land Tax = \$28,000.00

Taxable Value = \$2,800,000

Calculated as \$2,800,000 multiplied by 1.000%.

# Notes to Certificate - Commercial and Industrial Property Tax

Certificate No: 95213593

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any commercial and industrial property tax (including interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue.

## Australian Valuation Property Classification Code (AVPCC)

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the *Valuation of Land Act 1960*:
  - a general valuation of the land;
  - a supplementary valuation of the land returned after the general valuation.
4. The AVPCC(s) shown in respect of land described on the Certificate can be relevant to determine if the land has a qualifying use, within the meaning given by section 4 of the *Commercial and Industrial Property Tax Reform Act 2024* (CIPT Act). Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
  - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
  - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
  - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

## Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
  - the date on which the land became tax reform scheme land;
  - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
  - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

## Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification

must be given to the Commissioner within 30 days of the change of use.

## Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

## Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

## Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to [www.sro.vic.gov.au/CIPT](http://www.sro.vic.gov.au/CIPT).
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
  - the request is within 90 days of the original Certificate's issue date, and
  - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

# Notes to Certificate - Windfall Gains Tax

**Certificate No:** 95213593

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows in respect of the land described in the Certificate:
  - Windfall gains tax that is due and unpaid, including any penalty tax and interest
  - Windfall gains tax that is deferred, including any accrued deferral interest
  - Windfall gains tax that has been assessed but is not yet due
  - Windfall gains tax that has not yet been assessed (i.e. a WGT event has occurred that rezones the land but any windfall gains tax on the land is yet to be assessed)
  - Any other information that the Commissioner sees fit to include such as the amount of interest accruing per day in relation to any deferred windfall gains tax.

## Windfall gains tax is a first charge on land

3. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, windfall gains tax, including any accrued interest on a deferral, is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid windfall gains tax.

## Information for the purchaser

4. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, if a bona fide purchaser for value of land applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser by the Commissioner is the amount set out in the certificate, described as the "Current Windfall Gains Tax Charge" overleaf.
5. If the certificate states that a windfall gains tax is yet to be assessed, note 4 does not apply.
6. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

7. Despite the issue of a Certificate, the Commissioner may recover a windfall gains tax liability from a vendor, including any amount identified on this Certificate.

## Passing on windfall gains tax to a purchaser

8. A vendor is prohibited from passing on a windfall gains tax liability to a purchaser where the liability has been assessed under a notice of assessment as at the date of the contract of sale of land or option agreement. This prohibition does not apply to a contract of sale entered into before 1 January 2024, or a contract of sale of land entered into on or after 1 January 2024 pursuant to the exercise of an option granted before 1 January 2024.

## General information

9. A Certificate showing no liability for the land does not mean that the land is exempt from windfall gains tax. It means that there is nothing to pay at the date of the Certificate.
10. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.
11. Where a windfall gains tax liability has been deferred, interest accrues daily on the deferred liability. The deferred interest shown overleaf is the amount of interest accrued to the date of issue of the certificate.

## Due diligence checklist

### What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](http://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

### Urban living

#### Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

#### Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

### Growth areas

#### Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

### Flood and fire risk

#### Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

### Rural properties

#### Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

#### Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

#### Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

### Soil and groundwater contamination

#### Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

(04/10/2016)

## **Land boundaries**

### **Do you know the exact boundary of the property?**

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

## **Planning controls**

### **Can you change how the property is used, or the buildings on it?**

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

### **Are there any proposed or granted planning permits?**

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

## **Safety**

### **Is the building safe to live in?**

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

## **Building permits**

### **Have any buildings or retaining walls on the property been altered, or do you plan to alter them?**

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

### **Are any recent building or renovation works covered by insurance?**

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

## **Utilities and essential services**

### **Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?**

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

## **Buyers' rights**

### **Do you know your rights when buying a property?**

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.
